Date: Wednesday, September 04, 2019  
Reference: UNDP-IRH-201907-RFQ-18-GROUND MONITORING SYSTEM  
Subject: Clarification Letter 1  
Deadline: **Sunday, September 15, 2019**

Dear Sir/ Madam,

Please be informed that, further to inquiries from prospective Offerors, we are sending both the clarification request received and the respective UNDP response to all invited Offerors and posting on relevant procurement websites along with revised RFQ document in accordance with our standard practices.

Clarification Note:		
No:	Question	Answers / Corrections
1	<b>Cfr 8. Technical specifications of the required equipment - 9) Water flow meter (for the 3 artesian sites in Georgia only)</b> The required flow meter is to be installed in an open channel or in the underground well?	The sensor will be installed in the underground well.
2	<b>Cfr 8. Technical specifications of the required equipment - Software support</b> “The Contractor is obliged to ensure that the data generated by the proposed monitoring system can be imported into the current groundwater monitoring information systems existing in Azerbaijan (for the 3 sites in Azerbaijan) and in Georgia (for the 3 sites in Georgia).” Is there a specific format required to ensure the compatibility with the current groundwater monitoring information systems existing in Azerbaijan and in Georgia?	The contractor during implementation will be given the required format.

All other terms and conditions remain the same.

Thank you and best regards,
