

**UNDP CYP RFP 086 2019**  
**RFP Subject: Project Designs for Conservation of the Panagia Kanakaria Monastery**  
**Clarifications no 2 dated 9 September 2019**

	<b>QUESTIONS</b>	<b>ANSWERS</b>
<b>1</b>	<p>Due to the requirements, we are asking ourselves if it is possible (as we already had planned) to hire local professionals keeping our previous Italian core team?</p> <p>If this would be possible, we will hand in our RFP. Otherwise, in the case this won't be possible, we aren't meeting the requirements and are forced to withdraw our interest in submitting the RFP.</p>	<p>According to the RFP's Section 3 – Bid Data Sheet, Management Structure and Key Personnel (Core team) page 21 each team needs to have to their core team one architect and one civil engineer registered at the TCYP chamber and one architect and one civil engineer registered at the GCYP chamber.</p> <p>The core team must meet these requirements (as well as the rest of the requirements requested in Form E. Section 4 page 46 of the Solicitation Document).</p> <p>The team (additional to the core team) could be enhanced with more technical staff and/or additional disciplines if it is considered necessary. A list of the names of all the team members shall be given.</p>
