Date: Wednesday, September 11, 2019
Reference: UNDP-IRH-201907-RFQ-18-GROUND MONITORING SYSTEM
Subject: Clarification Letter 2
Deadline: **Sunday, September 15, 2019**

Dear Sir/ Madam,

Please be informed that, further to inquiries from prospective Offerors, we are sending both the clarification request received and the respective UNDP response to all invited Offerors and posting on relevant procurement websites along with revised RFQ document in accordance with our standard practices.

Clarification Note:		
No:	Question	Answers / Corrections
1	Could you please specify the technical parameters for flow meter connection at 3 locations in Georgia - the piping diameter of the measuring point and the expected range of measured flow rates.	The piping diameter are 127 mm for Well 6, 219 mm for Well 5, and 146 mm for Well 8.
2	The information required on question 1 is quite important for us. Is it possible to postpone the deadline for a week so we have time to prepare a quotation based on your answer of question 1?	The is no need for more time, the bidder should prepare the offer based on the data provided
3	There is no requirement to present information on the brand, model, etc. of the proposed equipment. Is it required to add to our proposal product specification sheets?	The bidding document includes specifications for each equipment, the bidder must include the brand name, model and country of origin for each equipment
4	It is mentioned that the 2-day training will be carried in Azerbaijan. Who is responsible to cover the costs of flying tickets from the Georgian Experts to Azerbaijan, The accommodation and possible visas?	The UNDP-GEF Kura II project will be responsible for covering the cost of the venue for the training and for the air tickets, DSA, and visas for the Georgian participants
5	In the tender documentation is mentioned that one of the evaluation criteria is "the number and qualifications of technicians working in the installation and maintenance of the online	The bidder must submit the number and qualifications of the technicians working in the installation of the online monitoring system in a tabular or text Format. It must

monitoring system". Could you clarify how this will be evaluated? Shall the bidder provide CVs of the technicians? Or a table with key information like name, years of experience, qualifications (training) for each technicians sufficient?	include the key qualifications for each one and number of years of experience working in such systems.
---	--

All other terms and conditions remain the same.

Thank you and best regards,
