Ref. 574-2019-RFP-MOH

Forward-Looking Evaluation of UNDP Procurement Support Services to the MoH Project

№	Question	Answer
1.	What is the budget available for this assignment? Is it possible to disclose this amount?	The amount planned for the procurement activity cannot be publicly announced in order not to affect the application process. Please provide your best offer, technically and financially.
2.	What is the approximate share of procurement assessment in comparison with legal and programmatic aspect?	Main share of the evaluation should be allocated to the forward-looking programme and procurement assessment. The analysis of the legislative environment should support the findings of the evaluation.
3.	How the reference prices for cost efficiency will be chosen?	Relevant countries to check price level of medicines will be chosen for each programme. This information will be shared and discussed with the awarded company by UNDP.
4.	What are main directions of a forward-looking evaluation?	Considering that the legislation enabling the international organizations such as UNDP to undertake the procurement of medicine on behalf of the Government will end in two years, the forward-looking evaluation should propose a set of steps for UNDP to ensure sustainability of its health programme (exist strategy, priorities, new development actions, etc.). Please see the ToR (2.Scope and Objective of the Assignment)
5.	How legislative component should be addressed, till what extent?	The legislation analysis should contribute to quality evaluation, particularly its findings and recommendations for the future work.
