1. BACKGROUND

The United Nations Development Programme jointly with the Ministry of Social Affairs (MoSA) launched the "Lebanese Host Communities Support Project" (LHSP) as a comprehensive, coordinated and durable response towards the Syrian Crisis and its implications on the country. The project is developed under a number of guiding principles which drive the activities of UNDP to support Lebanon and the host communities, as well to support national and local institutions through capacity building to respond to the impact of the Syrian crisis in Lebanon and the pre-existing problems before the Syrian crisis and exacerbated by the current situation. These include: efficient utilization of funds by targeting the national and local mechanisms that can impact positively the response to the challenges, and have a

multiplier effect across sections; and by targeting most vulnerable host communities; ensuring stakeholder participation in the affected areas in the identification, implementation and monitoring of interventions in a transparent manner; treating social stability as both a targeted activity as well as a cross cutting theme; and, developing local capacities to operate and maintain the interventions after completion to ensure sustainability.

The Lebanon Crisis Response Plan (LCRP) serves these collective aims for Lebanon's poor and Syria's displaced families. Led by the Government of Lebanon, it increases attention and investments for Lebanon's needs - strengthening the link between international humanitarian aid for those displaced by Syria's conflict and Lebanon's national stability.

The Project seeks to help increase stability, specifically in the areas affected by the Syrian crisis, through improving livelihood and service provision in a conflict sensitive manner. It aims at contributing to improved community security, economic recovery and social stability in the affected areas through a community-based approach which will increase livelihood options and local level service delivery.
