Questions	Answers
What are the required specifications based on which mechanical equipment is supplied as an oxygen generator and others??	All materials and equipment (civil, mechanical and electrical) are subject to the standard specifications for this hospital and compliance sheets, both of which are attached to hospital documents.
Are there equipment that may be imported from outside Iraq?	All required specifications for all equipment must be checked and inspected before supplying it, from either inside or outside Iraq?
Are all materials used subject to laboratory and field tests?	All materials requiring laboratory or field tests must be tested by accredited laboratories.
Is the time period specified for completing the work enough?	Yes, this period is enough in case of adherence to the schedule of work progress.
Are the quantities in the BOQ enough to complete the work?	Yes, the quantities meet the purpose, and the company's dues are paid based on the final measurement at the end of the work and not on the quantities in the BOQ.
Is the area in which the project is located safe and stable?	Yes, it is
