INDIVIDUAL CONSULTANT PROCUREMENT NOTICE
National Consultant – Documentation Officer

Reference No.: UNDP/PN/19/2020 Date: 19 March 2020

Country: NEPAL

Description of the assignment:
UNDP with support of European Union has identified the need to support the newly formed Local Government in building emergency response and disaster risk reduction capacity, thus enhancing urban resilience and strengthening the disaster governance in Nepal, under its Humanitarian Implementation Plan (HIP) 2019-2021. ECHO, therefore, has sought UNDP’s engagement to implement the project titled “Reducing disaster risks and enhancing emergency response capacities in multi hazard-risk prone urban areas of Nepal”. This project will be implemented in core urban areas of 3 at-risk cities, one each from terai (Bharatpur), hills (Bhimeshwor) and valley (Lalitpur), that are representatives of other cities across Nepal. In achieving its aim, the project contributes to enhance understanding of the communities and local authorities of at-risk urban areas and private sector about underlying multi-hazard risks and vulnerabilities, identifies and supports in key areas to undertake system strengthening and demonstrates possible structural and non-structural interventions to enable effective, coordinated emergency response and risk reduction.

With the growing urban areas one of potential hazards in urban area is fire, as it is one among those hazards with a high likelihood of occurrence with complexity in response mechanisms. Haphazard urbanization leading to densification of housing stock and population, with inadequate infrastructure particularly access and other services, along with limited capacity of the municipality to respond to incidents are key factors that aggravate in degree impact and scale of loss. The frequency of fire incident has increased with at least 1 reporting of big incident every month.

Hence, the overall objective of this assignment is to enhance understanding on causes of fire incidents and response undertaken by various stakeholders, identification of key gaps for effective and coordinated response for major fire incident in the past. This assignment will also provide opportunity to document the major fire incidents that might occur in selected high-risk urban areas leading to inputs and advocacy for effective and coordinated emergency response and risk reduction measures

Project name: Comprehensive Disaster Risk Management Programme (CDRMP)

Period of assignment/services (if applicable): 40 days, spread over 8 months

Proposal should be submitted by email to procurement.np@undp.org not later than 1730 hours (Nepal Standard Time) of 02 April 2020 mentioning reference No. UNDP/PN/19/2020 – Documentation Officer
Any request for clarification must be sent in writing, or by standard electronic communication to the e-mail: query.procurement.np@undp.org mentioning Procurement Notice Ref: UNDP/PN/19/2020; Documentation Officer, on or before 25 March 2020. The procurement unit will respond in writing, including an explanation of the query without identifying the source of inquiry, to all consultants or via bulletin published on the UNDP website: http://www.np.undp.org/content/nepal/en/home/operations/procurement.html. Inquiries received after the above date and time shall not be entertained.

1. BACKGROUND

UNDP has been present in Nepal since 1963, working towards greater development impact in the most remote, poor, and vulnerable areas. Reduction of vulnerability to disaster and climate risks is one of the core programmatic approaches in promoting sustainable and resilient development. Over the years, UNDP has established itself as the Government of Nepal's key partner on disaster risk management, in the areas of policy and institutional capacity enhancement as well as community-level risk reduction. A long-standing and excellent partnership and collaboration with the Government of Nepal (GoN) is the backbone of the UNDP's disaster risk management programme, and the key ministries and departments.

The Comprehensive Disaster Risk Management Programme (CDRMP) has been formulated as a part of the Strategic Partnership Framework signed between the BCPR and UNDP, and in accordance with the Nepal Risk Reduction Consortium. The programme aims to strengthen the institutional and legislative aspects of DRM in Nepal, by building the capacities of Ministry of Home Affairs, other ministries, and local governments. The CDRMP also establishes strategic linkages between DRM and development sectors. The programme’s intervention in the area of Building Code, Risk Sensitive Land Use Plan, Safer Construction practices, Climate Risk Management, Community-based Disaster Risk Management, and Emergency Preparedness, Response and Early Recovery aims to strengthen the overall system of disaster risk reduction and management in Nepal.

After 2015 earthquake, UNDP has been intensively engaged in supporting the GoN and affected communities in reconstruction and recovery efforts. UNDP coordinated Post Disaster Need Assessment (PDNA) and Post Disaster Recovery Framework (PDRF) processes, supported development of disaster resistant technologies and articulation of compliance norms, undertook large scale information education and communication campaigns through various means like TV, radio and mobile vans. UNDP also provided support through expert resource persons for strengthening institutional setup of the NRA and MoUD at national and district level to implement reconstruction programme. CDRMP, through its initiatives and reconstruction and recovery projects, has focused its attention at addressing the last mile connectivity issues facing the owner driven reconstruction, to equip households with knowledge and skills to rebuild in resilient manner, recover livelihood means, recover from shocks and build back better.

2. SCOPE OF WORK, RESPONSIBILITIES AND DESCRIPTION OF THE PROPOSED ANALYTICAL WORK

For detailed information, please refer to Annex 1
3. REQUIREMENTS FOR EXPERIENCE AND QUALIFICATIONS

I. Academic Qualifications:
▪ Master’s degree of Disaster Risk Management or, relevant Social Science field.

II. Years of experience:
▪ 3 years of relevant experience after Master’s degree on relevant field.
▪ Experience of working with NGO/INGO in similar type of work is desirable

III. Competencies:
▪ Demonstrated skills on preparing quality reports and other knowledge products.
▪ Efficient in use of MS Office and other office tools.
▪ Demonstrates regular and consistent communication quality
▪ Proficiency in written and spoken Nepali and English languages with demonstrated writing skills
▪ Self-motivated and ability to recommend options for resolution of issues;
▪ Strong service orientated, seeks guidance and takes actions to address areas of growth and improvement
▪ Consistent approach toward work with a positive and constructive attitude;

4. DOCUMENTS TO BE INCLUDED WHEN SUBMITTING THE PROPOSALS.

Interested individual consultants must submit the following documents/information to demonstrate their qualifications:

• Offeror’s Letter to UNDP Confirming Interest and Availability for the Individual Contractor (IC) Assignment
• A cover letter with a brief presentation of your consultancy explaining your suitability for the work;
• A brief methodology on how you will approach and conduct the work

Note:

a) Applicants of 65 years or more require full medical examination and statement of fitness to work to engage in the consultancy

b) The candidate has to be an independent consultant (If the candidate is engaged with any organization, the organization employing the candidate will be issued with a Reimbursable Loan Agreement (RLA) to release the employee for the consultancy with UNDP.)

c) Due to sheer number of applicants, the procurement unit will contact only competitively selected consultant.

2. Financial proposal
3. Personal CV including past experience in similar projects and at least 3 references

5. FINANCIAL PROPOSAL

• Lump sum contracts
The financial proposal shall specify a total lump sum amount, and payment terms around specific and measurable (qualitative and quantitative) deliverables (i.e. whether payments fall in installments or upon completion of the entire contract). Payments are based upon output, i.e. upon delivery of the services specified in the TOR. In order to assist the requesting unit in the comparison of financial
proposals, the financial proposal will include a breakdown of this lump sum amount (including travel, per diems, and number of anticipated working days).

**Travel:**

All envisaged travel costs must be included in the financial proposal. This includes all travel to join duty station/repatriation travel. In general, UNDP should not accept travel costs exceeding those of an economy class ticket. Should the IC wish to travel on a higher class he/she should do so using their own resources.

In the case of unforeseeable travel, payment of travel costs including tickets, lodging and terminal expenses should be agreed upon, between the respective business unit and Individual Consultant, prior to travel and will be reimbursed.

6. EVALUATION

Individual consultants will be evaluated based on the following methodologies:

**Cumulative analysis**

When using this weighted scoring method, the award of the contract should be made to the individual consultant whose offer has been evaluated and determined as:

a) responsive/compliant/acceptable, and

b) Having received the highest score out of a pre-determined set of weighted technical and financial criteria specific to the solicitation.

* Technical Criteria weight; 70%

* Financial Criteria weight; 30%

Only candidates obtaining a minimum of 49 point would be considered for the Financial Evaluation

2. Context
Nepal is undergoing rapid urbanization, along with new federal structure, where new actors and systems are in place, having three tiers of the government system, for leading development activities including DRR and emergency response at different levels. These actors are also mandated to formulate Municipal level DRRM Act and have authority and responsibility, making them key stakeholders for any DRR interventions to be undertaken at municipal and community level. However, this new structure is still in transition phase, and nascent so needs to be strengthened to develop robust mechanisms for reducing existing and mitigating future risks. Hence, the priority should be to develop understanding of the key stakeholders on the natural and human-induced hazards they are exposed to and factors that aggravate their vulnerability. This sensitization will further help in reinforcing any structural and non-structural interventions including policy and legal aspects for reducing existing risks and making the communities and municipality better prepared for effective disaster response. Likewise, the municipality needs to be capacitated, to plan and mobilize resources and institutionalize systems that ensures effective and coordinated response.

UNDP with support of European Union/European Civil Protection and Humanitarian Aid Operations (ECHO) has identified the need to support the newly formed Local Government in building emergency response and disaster risk reduction capacity, thus enhancing urban resilience and strengthening the disaster governance in Nepal, under its Humanitarian Implementation Plan (HIP) 2019-2021. ECHO, therefore, has sought UNDP’s engagement to implement the project titled “Reducing disaster risks and enhancing emergency response capacities in multi hazard-risk prone urban areas of Nepal”. This project will be implemented in core urban areas of 3 at-risk cities, one each from terai (Bharatpur), hills (Bhimeshwor) and valley (Lalitpur), that are representatives of other cities across Nepal. The project aims to create a shared understanding on urban disaster risks and evolve mechanisms and measures that aids the communities, municipal governments and private sector to address the risks and effectively respond to emergencies, with specific focus on vulnerable population. In achieving its aim, the project contributes to enhance understanding of the communities and local authorities of at-risk urban areas and private sector about underlying multi-hazard risks and vulnerabilities, identifies and supports in key areas to undertake system strengthening and demonstrates possible structural and non-structural interventions to enable effective, coordinated emergency response and risk reduction.

The project interventions focused on urban DRR encompasses 3 major components, that are:

1. Enhanced understanding of disaster risk at community and municipal levels in selected high-risk urban areas
2. System strengthened/established at all levels for effective emergency response and management
3. Enhanced disaster preparedness at community and municipal level for effective emergency response and risk reduction.

3. Objective
A disaster results from an extreme event that exceeds the capacity of the affected area to respond with measures to save lives, preserve properties and/or maintain its social, ecological and economic stability. The impacts of natural and man-made disasters have amplified over recent decade, causing loss of life, property and livelihood and severe environmental impacts.
One of such potential hazards in urban area is fire, as it is one among those hazards with a high likelihood of occurrence with complexity in response mechanisms. Haphazard urbanization leading to densification of housing stock and population, with inadequate infrastructure particularly access and other services, along with limited capacity of the municipality to respond to incidents are key factors that aggravate in degree impact and scale of loss. The frequency of fire incident has increased with at least 1 reporting of big incident every month.

Hence, the overall objective of this assignment is to enhance understanding on causes of fire incidents and response undertaken by various stakeholders, identification of key gaps for effective and coordinated response for major fire incident in the past. This assignment will also provide opportunity to document the major fire incidents that might occur in selected high-risk urban areas leading to inputs for effective and coordinated emergency response and risk reduction.

4. Scope of work

The specific objective of this assignment is to:

- document cause of occurrence of fire incident with technical details across different provinces of Nepal focusing in urban areas (including major past event as well)
- document response mechanism, coordination and capacity of the key stakeholders during the response period
- use appropriate means to document through field visit, such as key informant’s interviews, photographs, news clippings, etc. and create database in systematic manner
- derive learnings to provide inputs in mitigation of fire hazard and strengthening coordinated fire response

Interview could, but not limited to, of following stakeholders: fire brigade, government officials, municipal authorities, security forces (Nepal army, Nepal Police and Armed police forces), journalists, private service providers, first responders, factories, corporates houses or individual whose properties has been damaged, neighbors, etc.

The expert will be called upon to perform specific list of tasks defined in accordance to any of the above enlisted objectives. The expert will be required to submit in writing report/recommendations/photos/videos, etc. of the specific tasks.

5. Expected outputs

- Deliver outputs as per the specific objectives defined above, and in the manner prescribed. The main output of this assignment is incident report after each of the key fire incident, or even few major past events, in line with the provided scope of work. This report needs to be submitted 1 week after the incident.
- Noting that requests for inputs and support may be received at very short notice, after an incident, the expert should be able to mobilize himself/herself in or outside Kathmandu valley.

6. Expected deliverables and proposed payment schedule
