**Support to the Improvement of Legal Aid Practices for Access to
Justice for All in Turkey Phase II Project (ILAP)**

1 Background

Turkey's efforts to improve access to justice for all have been given impetus since 2000 and providing better functioning legal aid system has been seen an important means for attaining that goal. Looking at all national level plans and programs, it is all visible that more systematic, accessible, well-known and institutionalized legal aid system which also gives priority to create responsive systems to disadvantaged groups is given special importance. In parallel to this framework, lawyers and Bar Associations have been dedicated to the provision of legal aid services and better assistance for disadvantaged groups. Further Ministry of Justice took important steps via its Department of Victims' Rights. However, despite the initiatives for improvement of the legal aid services in Turkey, it is addressed by both EU Progress Reports, as well as international and national analysis that legal aid system in Turkey needs to be further supported and improved in terms of its procedures, quality and impacts on citizens together with the coordination among all actors involved and further improvement of quality of legal-aid services provided by lawyers.

By considering all these circumstances and based on the achievements and results of the "Support to the Improvement of Legal Aid Practices for Access to Justice for All in Turkey Phase I", this Project aims to develop more coordinated, qualified and systematic approach into legal aid practices in Turkey and build awareness on the operationalization of performance management tools and mechanisms to enhance the efforts to ease access to justice. This will be achieved through developing mechanisms towards gaps for better coordination and improving networks among legal aid service providers (Union of Turkish Bar Associations, Bar Associations and lawyers), women NGOs and civil society, as well as increased capacity of lawyers through an online training. With the aim to develop a systematic and structured approach, the Project will implement pilot practices for specialized legal aid services towards gender-based violence victims. The Project will also address the implementation of the policy recommendations for improved legal aid services generated in Phase I and will further support the institutional needs of Bar Associations through the dissemination of performance criteria and evaluation mechanisms that are introduced to ensure an effective, coordinated and monitored legal aid system in Turkey.

The Second Phase focuses on institutional and individual level capacity enhancement activities for Union of Bar Associations of Turkey, Local Bar Associations and lawyers practicing legal aid as well as enhanced cooperation and coordination with NGOs and civil society organizations. Recalling from the experiences and findings of Phase I, Phase II of the Project will implement pilot practices for specialized legal aid services towards gender-based violence victims, especially women. Through the evaluation of Poppy Project practices and development of a more consolidated and structured system of legal aid provision, more citizens will have access to legal aid services. The project aims to achieve the following results for enhancing the efficiency of the legal aid system in Turkey:

➤ **Result I: COORDINATION**

Output: Enhanced coordination between women NGOs, civil society organizations, public bodies, lawyers and bar associations to improve the legal aid system in Turkey.

➤ **Result II: SYSTEM DEVELOPMENT**

Output: Development of a systematic and structured approach for legal aid services via implementing and further improving best practices in pilot Bar Associations: Poppy Project Practices

➤ **Result III: CAPACITY DEVELOPMENT**

Output: Enhanced capacities of lawyers practicing legal aid through a tailor-made training programme

➤ **Result IV: AWARENESS RAISING**

Output: Awareness rising among bar associations in Turkey on the performance criteria and evaluation mechanism for legal aid services and automation system for appointment of CCP lawyers

With a view to implement the project activities in an effective and efficient way and achieve the expected results of the Project, a team of consultants will be established within the scope of the Project.
