

**Bid Bulletin 02**  
**IRQ-ITB-088/20**

**IRQ-ITB-088/20: Rehabilitation of Al-Qadisiyah Electrical Substation in  
Ramadi**

Question(s)	Answer(s)
<p>We would like to request a clarification regarding subjected newly announced tender. As its stated in BoQ only Siemens and Schneider products will be accepted according to the explanation of end user</p>	<p>Kindly note that the request is made by the Government Authorities to rehabilitate an existing substation with Siemens and Schneider components/equipment, after consultation with end-user, the cited brands requested due to the following reasons:</p> <ul style="list-style-type: none"><li>✓ This project is for the rehabilitation of existed substation for old models which contains "Siemens" and "Schneider" equipment;</li><li>✓ The end-user has standardized these brands within the target project area;</li><li>✓ Availability of spare parts for the mentioned brands in the end-user stores;</li><li>✓ End-user staff are trained on these brands and they are familiar with the substation.</li></ul> <p>Based on the above, bidders are kindly advised to submit their quote(s) as per compliance sheet and BOQ advertised.</p>
