

Question

in reference to the above, we hereby seek for clarification on some items that have various options in the terms of reference but when you look at the price schedule, only one option has been catered for. examples in this case are manuals, Notebooks, wall calendars, Tshirts, pop-ups, backdrops, and signs. Should we go ahead and create for more options, or we leave the price schedule the way it is? but if its left the way it is, it may not reflect the comparability aspect since every one will have quoted for different options and it may be bring in budgeting issues to not only the vendors but also UNDP as an Organisation.-

Answer

Please proceed and Quote for different Options. Analysis will be done during at evaluation
