

ITB-217/20
Supply of Kitchen & Laundry Equipment for Al Batool Building in Al Shifaa Hospital Complex-West Mosul
Bid Bulletin 1
Questions and Answers

Question	Answer
Is there any additional requirement for the equipment to comply with local standards? Based on previous experiences, we had some troubles in the past as Iraq didn't accept supplies with EC type-approval.	All equipment/materials that comply with the technical specifications will be accepted.
Please share the AutoCAD file of the attachment drawing as many equipment sizes are missing hence we can't give you a proper quotation.	Bidders are advised to use the scale of the drawing provided in the sheet to check the dimensions of the equipment. The AutoCAD format drawing will be provided after the contract stage.
