A. Project Title: Mainstreaming, Acceleration and Policy Support for SDGs in Balochistan

B. Project Description:

The Sustainable Development Goals (SDGs), also called the global development agenda, is a universal call to leave no one behind and reaching the furthest with a central focus on people, planet, prosperity, peace and partnership. To pursue the commitment along with Government of Pakistan, UNDP is supporting and working closely with the Government of Pakistan in the implementation of Sustainable Development Goals. Under the Project Mainstreaming Acceleration and Policy Support (MAPS) for Sustainable Development Goals (SDGs), UNDP is supporting Ministry of Planning, Development & Reform, Government of Pakistan and Provincial Planning and Development Departments for the implementation of the project with the following four outputs:

- 1: Plans, Policies and Resource Allocation Aligned to 2030 Agenda.
- 2: SDGs monitoring, and reporting strengthened
- 3: Financing flows are increasingly aligned with 2030 Agenda
- 4: Innovative approaches applied to accelerate progress on priority SDGs

The 2030 Agenda at national and sub-national demands the primary responsibility of governments to implement the SDGs at the National, Provincial and Local levels. In pursuing the project outputs, SDGs Support Unit under the umbrella of Planning and Development Department, Government of Balochistan has completed several initiatives with the support of UNDP. Some of the major initiatives include Provincial SDGs Framework for Balochistan, updation of Balochistan Comprehensive Development Strategy, formation of District SDGs Committees, establishment and orientation of Parliamentary Task Force and preparation of District Localization Plans on pilot basis.

Referring to the output 2 above, the role of data and statistics are very essential in monitoring and reporting the progress of SDGs targets and indicators. In addition, the information and findings inferred from statistical analyses help policy makers in measuring the development efforts and taking evidence-based decisions accordingly. Despite the fact that data availability and quality have steadily improved over the years, the data literacy and statistical capacity needs further strengthening at demand and supply sides particularly with the lens of SDGs indicators.

With the above stated importance of data and statistical capacities in the implementation of SDGs, it has been decided under MAPS for SDGs project to conduct Capacity Need Assessment (CNA) of the Provincial Bureau of Statistics and statistical cells in the key line departments for the meaningful monitoring and reporting on SDGs. 18. LIMITATION ON ACTIONS: Except with respect to any indemnification obligations in Article 9, above, or as are otherwise set forth in the Contract, any arbitral proceedings in accordance with Article 17, above, arising out of the Contract must be commenced within three (3) years after the cause of action has accrued.

The Parties further acknowledge and agree that, for these purposes, a cause of action shall accrue when the breach actually occurs, or, in the case of latent defects, when the injured Party knew or should have known all of the essential elements of the cause of action, or in the case of a breach of warranty, when tender of delivery is made, except that, if a warranty extends to future performance of the goods or any process or system and the discovery of the breach consequently must await the time when such goods or other process or system is ready to perform in accordance with the requirements of the Contract, the cause of action accrues when such time of future performance actually begins,

19. PRIVILEGES AND IMMUNITIES: Nothing in or relating to the Contract shall be deemed a waiver, express or implied, of any of the privileges and immunities of the United Nations, including its subsidiary organs.
