1. BACKGROUND

The United Nations Office of Drugs and Crime (UNODC) is devoted to ensuring States have the tools, expertise and commitment to effectively prevent and respond to trafficking in persons (TIP) and smuggling of migrants (SOM). UNODC's Human Trafficking and Migrant Smuggling Section (HTMSS) administers three Global Programmes aimed at addressing trafficking in persons and the smuggling of migrants.

One of these programmes is the Global Action to Prevent and Address Trafficking in Persons and the Smuggling of Migrants (herein referred to as GLO.ACT). GLO.ACT is a 4-year (2015-2019) joint initiative by the European Union (EU) and UNODC being implemented in partnership with the International Organization for Migration (IOM) and the United Nations Children's Fund (UNICEF). GLO.ACT is being delivered in 13 countries across Africa, Asia, Eastern Europe and Latin America, with a focus on assistance to governmental authorities, civil society organizations, victims of trafficking and smuggled migrants.

Following the lessons learned and good practices being identified under GLO.ACT, UNODC in partnership with the EU (funder) and IOM, is implementing a regional expansion into Asia and the Middle East, focusing on Afghanistan; Bangladesh; Iran; Iraq and Pakistan. The new Programme has five outcome areas as follows:

1. Beneficiary countries have capacity, tools and information to develop, implement, monitor and evaluate evidence-based strategies and policies against TIP and SOM, aligned with international instruments.
2. Beneficiary countries adapt their national legal frameworks on TIP and SOM in line with international standards and other good practices.
3. Beneficiary countries provide a strengthened criminal justice response to TIP and SOM.
4. Beneficiary countries contribute to strengthened regional and trans-regional cooperation related to TIP and SOM.
5. Beneficiary countries improve the scope and quality of their protection response, including identification, referral and support, for victims of trafficking, vulnerable smuggled migrants and other vulnerable migrants.

In UNODC's work to address TIP and SOM, gender and human rights considerations play a role in determining the factors that contribute to vulnerability, including gender-based violence and inequitable access to resources and opportunities. Gender considerations also shape how interventions and programmes are designed and delivered, including equal participation of women at all stages of programming. GLO.ACT Pakistan seeks to ensure that in rendering support to the government to implement the national response to trafficking in persons and smuggling of migrants, gender and human rights issues have a baseline from which to measure impact by the end of the project, as well as policy directions to ensure deliberate factoring in of measures to address gender and human rights gaps in implementation.
