Section 5. Terms of Reference

Terms of Reference

for development of IT tool for citizens' online registration on the VRU web portal

Project name: EU-UNDP Parliamentary Reform Project Timeframe: The entire assignment has to be accomplished during August 2020 – December 2020

I. Background Information on the Project:

The EU-UNDP Parliamentary Reform Project (PRP) is aimed at strengthening the functioning of the Ukrainian Parliament, the Verkhovna Rada of Ukraine, its working bodies, MPs and Secretariat (VRU), to become a progressively more effective, accountable and transparent institution in carrying out its constitutional responsibilities of legislation, oversight, and representation with positive influence on the overall process of EU-Ukraine Association Agreement implementation. The project strategy is aligned with the priorities of the EU's Single Support Framework for Ukraine 2018 – 2020, the Government of Ukraine – UN Partnership Framework 2018–2022, and the UNDP Country Programme Document 2018 – 2022. It is built on achievements and lessons learnt of the EU-UNDP Rada for Europe project (2016-2018) and will continue to support parliamentary reform, including through promoting the implementation of the recommendations of the 2016 Needs Assessment Mission (NAM). For the continuation of parliamentary reform, top level leadership and political ownership is key, which will be assured through continuous high-level consultations with relevant stakeholders and full transparency of project implementation.

The project is an EU-funded initiative strongly connected to UNDP's Democratic Governance Programme and comprises of three components. Component One, #Rada4Reforms, will focus on fostering the parliament's role in the overall reform process with a particular emphasis on improvement of the legislative process and parliamentary oversight, by providing comprehensive expert support to the implementation of the VRU Roadmap for Internal Reform and Capacity Building, improving the quality draft law expertise and impact assessment, and enhancing parliamentary monitoring.

Component Two, #RadaPro, will support the professional modernization of the parliamentary Secretariat, through the finalisation and implementation of its strategic development plan and comprehensive human resource development, including in the Committee Secretariats, along the lines of broader public administration reform (PAR) and the law "On Civil Service".

Component Three, **#**Transparent&Service-OrientedRada, by making use of new technologies for communications, civic education and participation in coherence will build stronger transparency and accountability links between parliament and citizens with special focus of increasing public trust to the Ukrainian Parliament.

Consistent with these developments and as part of the project document and work plan approved by UNDP and the EU, UNDP is seeking for the professional services of Company on development of IT tool for the VRU web portal for citizens online registration to attend committee meetings, Parliamentary and committee hearings, plenary sessions, VRU tours, lessons at the Educational Centre, open public events etc. in order to support implementation of the VRU Communication Strategy. Establishment of the electronic registration forms to visit Parliament is in line with the Communication Strategy of the VRU (Task 3) - Ensure public participation in the decision-making process in the Verkhovna Rada of Ukraine through feedback, active involvement in the lawmaking process and increased opportunities to attend parliament.

At the same time, parliamentary staff responsible for access to the buildings of the Parliament will receive tools for quick and easy data transfer by integrating registration forms with the system of internal documentary of the Verkhovna Rada. An important element of online registration forms will be the ability of tracking the statistics of visitors by number, age, gender, geography automatically.

8. EVALUATION CRITERIA

Evaluation and comparison of proposals

A two-stage procedure is utilized in evaluating the proposals, with evaluation of the technical proposal being completed prior to any price proposal being opened and compared. The price proposals will be opened only for submissions that passed the minimum technical score of 70% (or 700 points) of the obtainable score of 1000 points in the evaluation of the technical proposals.

In the First Stage, the technical proposal is evaluated on the basis of its responsiveness to the Terms of Reference (TOR) and as per below Evaluation Criteria.

In the Second Stage, the price proposals of all offerors, who have attained minimum 70% score in the technical evaluation, will be reviewed.

Overall evaluation will be completed in accordance with cumulative analysis scheme, under which the technical and financial aspects will have pre-assigned weights on 70% and 30% of the overall score respectively. The lowest cost financial proposal (out of technically compliant) will be selected as a baseline and allocated the maximum number of points obtainable for financial part (i.e. 300). All other financial proposals will receive a number of points inversely proportional to their quoted price; e.g. 300 points x lowest price / quoted price.

The winning proposal will be the one with the highest number of points after the points obtained in both technical and financial evaluations, respectively, are added up. The contract will be awarded to the bidder that submitted the winning proposal.

The evaluation of the technical proposals

* Dear partners!

The United Nations Office in Ukraine would like to inform you that the purchase of goods and services announced in the tender will be carried out within the project of international technical assistance.

According to the provisions of the Tax Code of Ukraine (paragraph 197.11), an exemption from VAT is provided for operations that are financed through material and technical assistance.

The procedure for obtaining the right to exemption from taxation for operations that are made within international technical assistance projects is regulated by the Decree of the Cabinet of Ministers of Ukraine No.153 dated February 15, 2002.

According to this procedure, the price of the contract is determined "without VAT" and the tax invoice is drawn up in accordance with paragraph 2 of Order No. 1307. In the left part of this invoice, the corresponding mark "X" should be made and the type of reason 12 should be indicated.
