---

### 1. BACKGROUND

#### **Organizational Context**

The United Nations Human Settlements Programme, UN-Habitat, is the agency for human settlements and sustainable urbanisation. It is mandated by the United Nations General Assembly to promote socially and environmentally sustainable towns and cities with the goal of providing adequate shelter for all. Leading efforts to advance UN system-wide coherence for sustainable urbanisation, UN-Habitat is playing a key role implementing the Goal 11 of the Sustainable Development Goals adopted in September 2015 as well as the New Urban Agenda (NUA) adopted in Quito, Ecuador in October 2016.

Founded in 1967, the Association of Southeast Asian Nations, ASEAN, was established with the signing of the ASEAN Declaration, aiming to promote collaboration and cooperation among Member States, as well as, to advance the interests of the region as-a-whole. Today, there are currently 10 Member States: Indonesia, Malaysia, Philippines, Singapore, Thailand, Brunei, Laos, Myanmar, Cambodia and Vietnam, forging ahead together towards the achievement of ASEAN Community Vision 2025.

Since 2008, UN-Habitat and the ASEAN Secretariat have engaged in a variety of UN and ASEAN Secretariat engagements. Most notably, UN-Habitat has been developing a new generation of sub-regional programmes which target all or selected ASEAN countries, especially in the area of cities and climate change. Meanwhile, the Bangkok Office of UN-Habitat is increasingly engaged in knowledge programmes with fellow UN agencies, on issues of migration, health, resilience and urban data in support of the 2030 Agenda for Sustainable Development and implementation of the New Urban Agenda.

### **About the project**

Half of the 600 million people in the ASEAN region already live in urban areas and by 2025 a further 70 million people in ASEAN will be city dwellers. Seeking to address this “mega-trend” of urbanization, the ASEAN Sustainable Urbanisation Strategy (ASUS) was launched at the 22nd ASEAN Coordinating Council (ACC) Meeting in November 2018, as one of the initiatives under the ‘Sustainable Infrastructure’ strategic area of the Master Plan on ASEAN Connectivity (MPAC) 2025.

Nearly one year after its launch, the ASUS and its two accompanying toolkits remains key to raising the standards of living of the citizens of ASEAN, enhancing shared prosperity of cities and regions, as well as strengthening climate action and resilience. In this regard, the period between 2020-2021 will be crucial to accelerating the implementation of the ASUS, with a special emphasis on small to medium-sized cities and intermediate cities, which are witnessing most of the growth in the ASEAN region over recent years and which will continue to exhibit significant upward population and economic trends.

As such, the accelerated implementation of ASUS will provide ASEAN cities with the opportunity to prioritize actions to achieve sustainable urbanisation, while implementing practical activities customised to their unique city contexts, designed to raise the standards of living of those within ASEAN which lie at the core of the New Urban Agenda and ASEAN Community Vision 2025.

Towards this end, the ASUS has been disseminated to city networks in ASEAN, with many cities in each of these networks sharing common priorities and concerns. While some technical support is provided through the various city networks in ASEAN, further resources are needed to help cities develop credible action plans and/or financially viable project proposals. As part of this project, an implementation plan integrating several initiatives and intended to accelerate sustainable urbanization during the period of January 2020-June 2021 (Phase 1) could support the achievement of the expected ASUS outcomes by 2025, with a second phase of intensified action at the local level between 2022 to 2025.

In summary, these initiatives and proposed key outputs in Phase 1 includes:

1. Technical advisory support to 8 selected pilot cities within ASEAN established as leaders in ASUS implementation in developing high-quality proposals within the ASUS Framework;
2. Organisation of an ASEAN Sustainable Urbanisation Forum bringing together diverse stakeholders from across ASEAN and supporting the development of improved urban policies;
3. Research and development of a report detailing the “State of Urbanisation in ASEAN”.

## 2. OBJECTIVE, SCOPE OF WORK, RESPONSIBILITIES AND DESCRIPTION OF THE PROPOSED ANALYTICAL WORK

### Key Responsibilities

The Local Project Officer - ASEAN Sustainable Urbanisation, will be responsible for the coordination of project development and management of the project in the city location. The regular tasks include:

#### City Technical Support

- Conduct of preliminary background assessment to understand the needs and capacity of the local government partner and areas which the proposed intervention is intended to address.
- Coordination with National, local Authorities and key stakeholders to perform participatory and consultative city diagnosis and action plan development in each selected ASEAN pilot city;
- Preparation of the technical proposals in alignment with specifications outlined by UN-Habitat and ASEAN requirements, based on relevant documents and materials provided;
- Analysis of technical proposals to include areas not limited to (i) Definition of the Intervention
- (ii) Aim and Objective of the Services (iii) Context and Rationale (iv) Scope and Deliverable of Services (v) Strategic Impact and Risk Assessment and (vi) Implementation;
- Support peer-to-peer exchanges between ASEAN pilot cities regarding the proposed interventions
- Provide information to the dedicated lead author for the Report on State of Urbanisation in ASEAN including support in the identification of subject matter experts.

#### Meetings Coordination

- Support in-country arrangements for project review and follow-up missions;
- Support the city-specific contribution to the ASEAN Sustainable Urbanisation Forum and associated events;
- Coordinate document preparation, compilation and dissemination to meeting participants and key stakeholders including National, local Authorities and Local Project Officers;
- Support research information in support of project materials and activities and assist with translations, interpretation and other support to the Project Team Leader as required;

#### Monitoring and Evaluation

- Regular monitoring and reporting on all project activities with partners and stakeholders to ensure a high quality of outputs being delivered within the agreed upon time frame;
- Support scoping studies and data collection to evaluate the interventions within the local strategic context and helping to address the feasibility, potential impact and any barriers;
- Supporting the mainstreaming of gender, environmental and social issues into the project activities and carrying out social and gender analyses across all project deliverables.

### 3. REQUIREMENTS FOR EXPERIENCE AND QUALIFICATIONS

#### Required Skills and Experience

<b>Education:</b>	<ul style="list-style-type: none"><li>• An Advanced university degree (Master's degree or equivalent) in urban and/or regional planning, urban economy, sustainable development, geography, sustainable urbanization or human settlements (10 points); OR</li><li>• First level university degree (Bachelor) with additional two years relevant and progressive experience in the fields may be accepted in lieu of the post-graduate or Advanced university degree (Master's degree or equivalent) (10 points).</li></ul>
<b>Experience:</b>	<ul style="list-style-type: none"><li>• A minimum of 5 years' progressive and relevant work experience in economic development, urban development and program management, preferably in the field of human settlements in the context of Indonesia (20 points);</li><li>• Working knowledge and experience in the technical area of <b>digital solutions to enhance safety and security</b> is considered as highly desirable (20 points);</li><li>• Understanding of key national stakeholders and partners relevant to the area of sustainable urbanization in the context of Indonesia (10 points);</li><li>• Work experience in either the United Nations or ASEAN, and general knowledge of UN or ASEAN rules and regulations are an advantage (10 points);</li><li>• Experience developing technical proposals at the city level (10 points).</li></ul>
<b>Language requirement:</b>	<ul style="list-style-type: none"><li>• English and French are the working languages of the United Nations Secretariat. For this post, fluency in <b>both English and Indonesian</b> is required (20 points).</li></ul>

#### Competencies:

##### Corporate Competencies:

- Demonstrates integrity by modelling the UN's values and ethical standards;
- Displays cultural, gender, religion, race, nationality and age sensitivity and adaptability;
- Treats all people fairly without favouritism.

##### Technical Competencies:

- Analytic capacity and demonstrated ability to process, analyse and synthesise complex, technical information;
- Proven ability to support the development of high quality knowledge and training materials, and to train technical teams;
- Proven experience in the developing country context and working in different cultural settings.

**Communication:**

- Communicate effectively in writing to a varied and broad audience in a simple and concise manner.

**Professionalism:**

- Capable of working in a high pressure environment with sharp and frequent deadlines, managing many tasks simultaneously;
- Excellent analytical and organizational skills.

**Teamwork:**

- Projects a positive image and is ready to take on a wide range of tasks;
- Focuses on results for the client;
- Welcomes constructive feedback.

**4. DURATION OF ASSIGNMENT, DUTY STATION AND EXPECTED PLACES OF TRAVEL****Duration of Work**

The duration of assignment will be from 17 August 2020 to 15 May 2021 over 9 months (part time). The maximum no. of working days is expected to be 110 days.

**Duty Station**

The assignment is **home-based in Indonesia** with representation in meetings and limited domestic travel expected along with the possibility of international travel in the South-East Asia region.

## 5. FINAL PRODUCTS

### Expected Outputs and Deliverables:

With reference to the tasks captured in the scope of work in the previous section, the Local Project Officer will be required to complete and provide the following deliverables as part of the contract:

Deliverables/Outputs	Target due dates	Review and Approvals Required
a) Deliverable 1 - Schedule and minutes of city consultations undertaken (online and offline);	30 / 09 / 2020	UN-Habitat Project Team Leader - ASEAN Sustainable Urbanisation Strategy, with the support of the Programme Management Officer (PMO) from the UN-Habitat Regional Office for Asia and the Pacific
b) Deliverable 2 - Review and inputs to the city diagnostics exercise being conducted;	15 / 11 / 2020	
c) Deliverable 3 - Draft city technical proposals based on priority actions identified by cities;	15 / 01 / 2021	
d) Deliverable 4 - Final city technical proposals intended as a model for replicability and scalability;	15 / 03 / 2021	
e) Deliverable 5 - Mission report from the ASEAN Sustainable Urbanisation Forum;	15 / 04 / 2021	
f) Deliverable 6 - Case study developed for Report on the State of Urbanisation in ASEAN.	15 / 05 / 2021	

## 6. PROVISION OF MONITORING AND PROGRESS CONTROLS

### Institutional Arrangement:

The project will place a Local Project Officer in each of the selected ASEAN pilot cities. Under the overall guidance of the UN-Habitat Regional Representative, Regional Office of Asia and the Pacific, and with direct supervision of the Chief of UN-Habitat Bangkok Office supported by the Project Team Leader - ASEAN Sustainable Urbanisation. In each country, the UN-Habitat Country Office will help assess the performance of the Local Project Officer and provide inputs to substantive activities.

## 7. DOCUMENTS TO BE INCLUDED WHEN SUBMITTING THE PROPOSALS.

### Required documentation required

Interested individual consultants must submit the following documents/information to demonstrate their qualifications. Please group them into one (1) single PDF document as the application only allows to upload maximum one document:

- a) Letter of Confirmation of Interest and Availability and Financial Proposal using the template provided by UNDP;
- b) CV, Indicating all past experience from similar projects, as well as the contact details (email and telephone) of the Candidate and at least three (3) professional references;
- c) Brief description of why the applicant considers him/herself the most suitable candidate.

**Incomplete proposals may not be considered. The short-listed candidates may be contacted for interview and the successful candidate will be notified.**

## 8. FINANCIAL PROPOSAL

### Scope of Price Proposal and Schedule of Payments

Consultant must send a financial proposal based on **Lump Sum Amount**. The term “all-inclusive” implies that all costs (professional fees, communications, consumables, medical insurance etc.) that could be incurred by the IC in completing the assignment are already factored into the daily fee submitted in the proposal. The contract price will be fixed output-based price regardless of extension of the herein specified duration.

If applicable, travel or daily allowance cost (if any work is to be done outside the IC’s duty station) should be identified separately.

Payments shall be done upon verification of completion of deliverables/outputs and approval by the IC’s supervisor of a report indicating deliverables in the period and as per below percentages

Payments (in relation to above deliverables)	Percentage
Payment 1 – Deliverable 1 (Minutes from city consultations)	10%
Payment 2 – Deliverable 2 (Inputs to city diagnostics exercise)	20%
Payment 3 – Deliverable 3 (Draft city technical proposals)	20%
Payment 4 – Deliverable 4 (Final city technical proposals)	30%
Payment 5 – Deliverable 5 (Mission report from ASEAN Forum)	10%
Payment 6 – Deliverable 6 (Case study for ASEAN Report)	10%

In the event of unforeseeable travel not anticipated in this TOR, payment of travel costs including tickets, lodging and terminal expenses should be agreed upon between the respective business unit and the Individual Consultant prior to travel and will be reimbursed.

In general, UNDP shall not accept travel costs exceeding those of an economy class ticket. Should the IC wish to travel on a higher class he/she should do so using their own resources.

Travel costs shall be reimbursed at actual but not exceeding the quotation from UNDP approved travel agent. The provided living allowance will not be exceeding UNDP living allowance rates.

## 9. EVALUATION

### **Evaluation Method and Criteria**

Individual consultants will be evaluated based on the following methodology

#### **Cumulative analysis**

The award of the contract shall be made to the individual consultant whose offer has been evaluated and determined as a) responsive/compliant/acceptable; and b) having received the highest score out of set of weighted technical criteria (70%). and financial criteria (30%). Financial score shall be computed as a ratio of the proposal being evaluated and the lowest priced proposal received by UNDP for the assignment.

Technical Criteria for Evaluation (Maximum 100 points)

- Criteria 1 Relevance of Education – Max 10 points
- Criteria 2 Work experience - Max 70 Points
- Criteria 3 Language requirement – Max 20 points

Only candidates obtaining a minimum of 70% of the total technical points would be considered for the Financial Evaluation. Interview session may be conducted if needed.

Applicant receiving the Highest Combined Score and has accepted UNDP's General Terms and Conditions will be awarded the contract. The successful candidate will hold a UNDP letter of appointment.
