SN	Query	UNDP Reply & Clarifications
1	In the Technical Specifications of the BOQ's item No.1 "NVR 32 CHANNEL 4 SATA 16 POE", it is listed that NVR need to be equipped with <u>16 independent POE</u> then " <u>up to 24 independent PoE network interfaces</u> ". Kindly specify what number of independent PoE network interfaces requested exactly (16 or 24 ?) because this would make a significant difference between two different NVR's with two different prices.	NVR 32 CHANNEL 4 SATA 16 POE .
2	Either if you chose 16 or 24 independent PoE network interfaces, you need a POE switch to operate the rest of the cameras, in the Technical Specifications there is no Switch mentioned. Please clarify if you need one..	Switches are available and can be checked during site survey .
