Response to mitigate migration, create awareness and access to social protection in Chhattisgarh

Section A : BACKGROUND

Social protection has gained significant traction around the world. A wide body of evidence in the past few decades strongly suggests that social protection programmes can be effective tools to reduce poverty and inequality, increase human capital and protect men, women, girls and boys from risks. The combination of this growing evidence base, and growing political will, has stimulated an appetite for implementing social protection programmes in virtually every country around the world. UNDP has been a key player in assisting governments in developing countries in designing and implementing social protection programmes and projects.

As the world copes with the current COVID crisis the national priorities vis-à-vis the Sustainable Development Goals (SDGs), there is an unprecedented opportunity to position social protection not only as a specific target (Target 1.3), and as a feature in Goals 3, 5 and 10, but as a critical tool to simultaneously achieve progress in many fundamentally interlinked Goals and Targets. In addition, social protection is one of the pillars of decent work and is therefore featured in Goal 8, and more specifically Target 8.5.

UNDP's extensive portfolio of social protection includes activities to support governments in the development of national strategies, policies and laws concerning social protection, to build local and national capacities in the design, implementation and delivery of social protection and to improve gender responsiveness of social protection, among others.

The growing COVID-19 crisis threatens to disproportionately hit developing countries, not only as a health crisis in the short term but as a devastating social and economic crisis over the months and years to come. **Income losses are expected to exceed \$220 billion in developing countries.** With an estimated 55 per cent of the global population having no access to social protection, these losses will reverberate across societies, impacting education, human rights and, in the most severe cases, basic food security and nutrition.

COVID crisis in India

Given the current situation of COVID crisis in India there is urgent need to promote inclusive social protection. Inclusive social protection emphasizes the need to reach everyone that needs to be reached, addressing deprivation in all areas that matter for well-being, beyond income poverty; it recognizes the need to make social protection sensitive to the specific needs and constraints faced by different groups, as well as how these needs and constraints interact with each other.

With the advent the COVID lockdown, workers have returned to their region of origin due to the lockdown of activities in urban centres. Given the nature of Bundelkhand region, the workers returning from urban centres will not have a social safety net to fall back upon during

the period of lockdown. **As ILO has predicted in its report India could see approximately 400 million informal sector workers being pushed into poverty²** due to the current COVID crisis.

There is a need to contain this situation for the workers to ensure that they have access to services to maintain bare minimum to survive whilst their livelihoods have been put on a hold. **The uptake of social protection will become a critical part of this strategy.** The World Bank and the International Monetary Fund have pointed out that social protection will play a critical role in curtailing this situation. The state governments have enacted proactive measures in the same light but there are human resource constraints along with limited reaching capacity to remote areas.

For the immediate support for better preparedness for COVID 19, the partnership with the CSOs shall focus on uptake of social protection schemes and programmes (BOCW, MGNREGA, PM schemes for Financial Inclusion and Health Insurance), strengthening awareness and building capacities of PRIs and frontline workers in the rural ecosystem.

Section B : SCOPE OF INTERVENTION

Chhattisgarh state is ranked 10th and 17th in area and population respectively. Chhattisgarh shares boundary with seven states MP, Maharashtra, Telangana, Andhra Pradesh, Odisha, Jharkhand and UP. It is expected that about 7 lakhs migrant will return to the state as an aftermath of COVID-19. So far, state has established 19,903 quarantine centres with capacity of 7,07,098 for migrants. About 4.5 lakhs migrants have come back to state and many of them are availing the facilities established by the state. Apart from this migrant problem which the state is facing, economic slow-down is also staring at the face of the state. As per SECC 2011, two third of rural population in the state belong to deprived category and hence this fragility also needs to be addressed as it is adversely impacting the livelihood of people.

Providing social protection and dignified employment to returnee migrants and affected families are the foremost concerns for the state government. Chhattisgarh government has initiated several measures to tackle the current situation and announced series of packages for the poor who are likely to be affected by the current lockdown and period thereafter. This included the announcement of the waiver of agricultural and Irrigation loan. State government has universalised the PDS system and also included the returnee migrant labours who have not been enrolled in the state to avail the benefit. Rapid coverage and effective implementation of these schemes has supported majority of the households in the State. Social protection schemes like MGNREGA, PDS, RGKNY and other existing social security pensions schemes are helping immensely in this adverse time and providing the needed succour to people.

Apart from the above, the state government has also allocated Rs. 1 crore as emergency fund to each District Collectors for setting up temporary camps for homeless families and non-resident to fulfil their basic requirements to tackle any unforeseen exigency. Gram Panchayats are also allowed to use fund of 14th finance commission for maintenance of quarantine facilities and food for migrant labours. Under MGNREGA, state has exceeded using the projected Labour budget for the months of the current FY. To provide the relief in COVID 19

²https://www.ilo.org/wcmsp5/groups/public/@dgreports/@dcomm/documents/briefingnote/wcms_740877.pdf

situation, Government has extended the support of PDS to migrant labours and other poor who do not possess Ration card in both rural and urban areas. In addition to it, State has provided free ration totalling 70 kgs each for 56.55 lakh households for the period of April and May. Similarly advance ration under the mid-day meal scheme for school children were supplied to counter any possible cause of hunger.

In spite of all the aforementioned efforts, still there is a felt need that gap areas are to be identified and an efficient system to be put in place to deliver the benefits to needy in faster pace. State planning commission Chhattisgarh (SPC) wants to remedy this situation as it has the mandate to facilitate innovation in development schemes and approaches. SPC has decided to collaborate with UNDP and other key departments and non-government organisations active in the state to innovate ways and means to strengthen delivery mechanism of all the benefits which should accrue to the targeted beneficiaries especially related to social protection schemes. This collaboration will focus on developing self-sustaining models of social protection services for labour, especially migrant labours, both inter and intra migrants.

Recently, SPC has launched Corona Help Web Portal with the help of different organisations including ICRG team of UNDP. This portal is managed by the Covid cell established under SPC with the help of UNICEF for continuing and improvising the web portal services for all the stakeholders. Response received so far is very encouraging as this portal is developed as an interactive portal. This proposed collaboration with UNDP will also support in providing more value added services to people and shall be an integral part of the overall program.

Objectives of the project – Program will aim to enhance coverage of deprived/ vulnerable and migrant households under social protection measures like government's social security schemes, entitlement of unskilled work under MGNREGA, Social schemes of labour welfare, village level social systems etc..

This Program will :

- Provide capacity building and IT based innovative solutions to concerned departmental staff for bringing efficiency for identifying households for enhanced coverage.
- Facilitate converged efforts by concerned departments for addressing the issues and problems of vulnerable households through their existing schemes. Care will be taken to include migrant labours to make them avail social protection entitlements.
- Strengthen the policy framework of state government to address labours especially women and youth who are working in un-organised sector and migrating to other states or districts.

Geographical location of the work – 9 districts – Balrampur, Jashpur, Korba, Jangjeer-champa, Bilaspur, Mungeli, Rajnandgaon, Bastar and Kanker.
