A. Project Title: Urban Resilience Programme in Rawalpindi

B. Project Description

The United Nations Development Programme is supporting governments and development partners to build partnerships and promote capacity building initiatives to solve urgent development challenges. One of the priorities is to support urban transition that is inclusive and sustainable for cities in the region, drawing upon UNDP’s internal thematic expertise, including on inclusive growth, governance, gender, migration and displacement, disaster risk reduction, climate change, innovation, and health.

The National and provincial SDG Frameworks showcase the commitment of Pakistan towards achieving the SDGs. The country has been very determined in addressing its climate challenges and disaster risk reduction and management, as demonstrated by the establishment of the Prime Minister’s Committee on Climate Change (PMCCC), the formulation of the National Climate Change Policy and its implementation framework, and the launch of several initiatives, such as Clean and Green Pakistan and Recharge Pakistan.

However, Pakistan is yet to formulate a coherent and comprehensive national urban policy, while cities feature a prominent space in climate change, environment issues and disaster risk management. According to United Nations Population Division, by 2025, nearly half of Pakistan’s population will be living in urban areas with one of the fastest pace of urbanization in South Asia. Cities, regardless of their sizes and development status, have grown unplanned and uncontrollably over the past decades, leading to a myriad of issues – urban sprawls, environment degradation, inadequate basic services, rising disparity and urban poverty and compromised urban resilience, to name just a few. Spatial planning of particularly major cities has been scarce, which is likely to create a vicious cycle of poor land management and spatial planning and expansion of urban sprawls. In the cases where master plans for urban development are available, they are not being rigorously implemented or taken ownership of.

To support local governments in addressing the challenge of rapid urbanization, utilizing it to generate economic development and sustainable growth for the cities and filling in the gap of the absence of an urban plan/policy, UNDP has established a Community of Practice (COP) on Sustainable Urbanization in the province of Khyber Pakhtunkhwa. Similarly, UNDP has also established Islamabad Urban Platform in collaboration with Metropolitan Corporation of Islamabad (MCI) to that identifies, highlights, explores and provides solutions to the multifarious urban issues cities face. UNDP has recently expanded the platform approach to Rawalpindi city in collaboration with Rawalpindi Development Authority (RDA). These Urban Platforms engages with and connects various stakeholders to generate discussions on how to collectively seek solutions and devise multi-disciplinary methodologies to solving urban problems.

As part of the current project of the Urban Platform in Rawalpindi we are working in the Raja Bazaar area of the city. The intervention consists of mapping of the part of the old Bazaar and devising an urban revitalization strategy with a focus on mobility, inclusive public spaces, job creation and street design. Over the years, the Raja Bazaar has densified, and the number and type of businesses have increased. Due to its strategic location, the Raja Bazaar receives an influx of traffic commuting to adjacent commercial and trade hubs. However, without adequate level of awareness among multiple stakeholders at sub-national level and their capacity for developing a long-term urban development vision, urban infrastructures and services have been hardly upgraded properly, buildings of historic
importance have not been restored and commercial development that hampers livability standards has progressed unchecked.

UNDP plans to provide technical support to the municipality and development authority in Rawalpindi and guide the process of understanding climate and disaster risks and identifying steps towards addressing those risks and building resilience in collaboration with the regional consultant and different technical experts from UNDP Bangkok Regional Hub (BRH). This process will develop a “Roadmap” detailing these steps as well as entry points to integrate risks into urban planning processes for the long-term.

UNDP aims to support municipalities localize the visions of the SDGs, the Paris Agreement (the NDC) and the Sendai Framework into the planning and budgeting process by establishing a resilient urban master plan. Depending on the specific local context, this master plan can be a new plan that integrates priority elements of the SDGs, the NDC and the Sendai Framework or an existing plan such as a spatial development plan that is enhanced and integrates these considerations. As part of the first phase of this initiative, UNDP will work with the municipality and development authority in Rawalpindi to help develop a roadmap which serves as general guidance for establishing a resilient urban master plan through 1. Facilitate stakeholder buy-in and commitment; 2. Conduct baseline assessment; 3. Identify and prioritize risks and develop framework for urban resilience roadmap through stakeholder consultations; 4. Develop a city resilience roadmap.

In this regards, UNDP is hiring an expert with extensive experience in urban planning and implementation of urban related projects to support the formulation of an urban resilience strategy and roadmap for Rawalpindi. The consultant will engage with multiple stakeholders, such as local government bodies, and commercial and non-commercial actors, recommend plans and solutions regarding urban design and planning, and support the formulation and implementation of an urban revitalization and resilience strategy.

C. Scope of Work

The scope of this assignment is to provide technical support to the municipality and development authority and guide the process of understanding climate and disaster risks and identifying steps towards addressing those risks and building resilience in collaboration with the regional consultant and different technical experts from UNDP Bangkok Regional Hub (BRH). This process will develop a “Roadmap” detailing these steps as well as entry points to integrate risks into urban planning processes for the long-term. (*The roadmap itself is not necessarily a separate document; the format may vary depending on the needs of the municipality.)

The process of developing this roadmap will be achieved through the following four steps –

1. Facilitate stakeholder buy-in and commitment;
2. Conduct baseline assessment;
3. Identify and prioritize risks and develop framework for urban resilience roadmap through stakeholder consultations;
4. Develop a city resilience roadmap.
1. Enhance understanding of urban resilience in the context of the 2030 Agenda with the Municipality and relevant stakeholders and develop capacities to integrate climate and disaster risks and resilience into planning and policy:

- Introduce the Mayor/the municipality officials/ Rawalpindi Development Authority (RDA) the concept of resilience roadmap, as well as its relevance to municipal long-term development.
- Facilitate session on long-term visioning, systems thinking, and strategic approaches to low-carbon resilient urban development in the context of the 2030 Agenda development frameworks.

2. Assess the urban resilience baseline:

- Conduct baseline assessments of the status of national actions towards fulfilling the three development frameworks and how they have or have not cascaded down to the sub-national level with support from the regional consultant and BRH.
- Conduct baseline assessments of existing risk and vulnerability information, institutional and municipal policy/regulatory set up as they relate to the topics of the three development frameworks, current financing arrangements to implement activities as they relate to the three development frameworks under the guidance of the regional consultant and BRH.
  - Collect and inventory available information related to vision, policy, plan, strategy, and other planning documents from the municipality and other relevant agencies.
  - Collect and review data sets/sources related to multi-hazard risks that municipality is exposed to and likely to be exposed to in the future.
  - Identify entry points and gaps.

3. Facilitate consultations to identify and prioritize risks and develop framework for urban resilience roadmap:

- Prepare for consultations with the municipality officials and other stakeholders to agree on;
  - Risk and/or vulnerability assessments required for integrating climate and disaster risks into future city master planning processes;
  - Sources of data and expertise to conduct such assessments;
  - Present linkages with the national level actions towards achievement of the three development frameworks;
  - Institutional, policy and financing arrangement for a functional and effective urban resilience master plan;
  - Capacity development plan; and
  - Timeline
- Organize meetings with the municipality officials and other stakeholders to agree on the items said above in coordination with RDA.
- Support the municipality to identify strategic areas of intervention and associated milestones to be set in the roadmap.

4. Develop a resilience roadmap:

- Produce a resilience roadmap based on the agreement with the municipality officials and other stakeholders, detailing key risks identified, areas of intervention, milestones, and implementation plan as it relates to development priorities.

The consultant will work closely with UNDP and RDA to engage with multiple stakeholders to devise an urban resilience strategy to improve the livability of the Raja Bazaar area, propose plans to increase the
livability and accessibility of the Raja Bazaar, coordinate advocacy campaigns for raising awareness at sub-national level and organize capacity building workshops on urban resilience, and help prepare a roadmap including implement interventions plan covering trash management, tree plantation, sewerage system improvement initiatives.

The initiation of conciliation or arbitral proceedings, as provided below, shall not be deemed to be a “cause” for or otherwise to be in itself a termination of the Contract. UNDP may, without prejudice to any other right or remedy available to it, terminate the Contract forthwith in the event that: (a) the Individual contractor is adjudged bankrupt, or is liquidated, or becomes insolvent, applies for moratorium or stay on any payment or repayment obligations, or applies to be declared insolvent; (b) the Individual contractor is granted a moratorium or a stay or is declared insolvent; the Individual contractor makes an assignment for the benefit of one or more of its creditors; (c) a Receiver is appointed on account of the insolvency of the Individual contractor; (d) the Individual contractor offers a settlement in lieu of bankruptcy or receivership; or (e) UNDP reasonably determines that the Individual contractor has become subject to a materially adverse change in its financial condition that threatens to endanger or otherwise substantially affect the ability of the Individual contractor to perform any of its obligations under the Contract.

In the event of any termination of the Contract, upon receipt of notice of termination by UNDP, the Individual contractor shall, except as may be directed by UNDP in the notice of termination or otherwise in writing: (a) take immediate steps to bring the performance of any obligations under the Contract to a close in a prompt and orderly manner, and in doing so, reduce expenses to a minimum; (b) refrain from undertaking any further or additional commitments under the Contract as of and following the date of receipt of such notice; (c) deliver all completed or partially completed plans, drawings, information and other property that, if the Contract had been completed, would be required to be furnished to UNDP thereunder; (d) complete performance of the work not terminated; and (e) take any other action that may be necessary, or that UNDP may direct in writing, for the protection and preservation of any property, whether tangible or intangible, related to the Contract that is in the possession of the Individual contractor and in which UNDP has or may be reasonably expected to acquire an interest.

In the event of any termination of the Contract, UNDP shall only be liable to pay the Individual contractor compensation on a pro rata basis for no more than the actual amount of work performed to the satisfaction of UNDP in accordance with the requirements of the Contract. Additional costs incurred by UNDP resulting from the termination of the Contract by the Individual contractor may be withheld from any amount otherwise due to the Individual contractor from UNDP.

14. NON-EXCLUSIVITY: UNDP shall have no obligation respecting, and no limitations on, its right to obtain goods of the same kind, quality and quantity, or to obtain any services of the kind described in the Contract, from any other source at any time.

15. TAXATION: Article II, section 7, of the Convention on the Privileges and Immunities of the United Nations provides, inter alia, that the United Nations, including its subsidiary organs, is exempt from all direct taxes, except charges for public utility services, and is exempt from customs restrictions, duties and charges of a similar nature in respect of articles imported or exported for its official use. In the event any governmental authority refuses to recognize the
exemptions of the United Nations from such taxes, restrictions, duties or charges, the Individual contractor shall immediately consult with UNDP to determine a mutually acceptable procedure. UNDP shall have no liability for taxes, duties or other similar charges payable by the Individual contractor in respect of any amounts paid to the Individual contractor under this Contract, and the Individual contractor acknowledges that UNDP will not issue any statements of earnings to the Individual contractor in respect of any such payments.

16. AUDITS AND INVESTIGATIONS: Each invoice paid by UNDP shall be subject to a post-payment audit by auditors, whether internal or external, of UNDP or by other authorized and qualified agents of UNDP at any time during the term of the Contract and for a period of two (2) years following the expiration or prior termination of the Contract. UNDP shall be entitled to a refund from the Individual contractor for any amounts shown by such audits to have been paid by UNDP other than in accordance with the terms and conditions of the Contract. The Individual contractor acknowledges and agrees that, from time to time, UNDP may conduct investigations relating to any aspect of the Contract or the award thereof, the obligations performed under the Contract, and the operations of the Individual contractor generally relating to performance of the Contract. The right of UNDP to conduct an investigation and the Individual contractor’s obligation to comply with such an investigation shall not lapse upon expiration or prior termination of the Contract. The Individual contractor shall provide its full and timely cooperation with any such inspections, post-payment audits or investigations. Such cooperation shall include, but shall not be limited to, the Individual contractor’s obligation to make available its personnel and any relevant documentation for such purposes at reasonable times and on reasonable conditions and to grant to UNDP access to the Individual contractor’s premises at reasonable times and on reasonable conditions in connection with such access to the Individual contractor’s personnel and relevant documentation. The Individual contractor shall require its agents, including, but not limited to, the Individual contractor’s attorneys, accountants or other advisers, to reasonably cooperate with any inspections, post-payment audits or investigations carried out by UNDP hereunder.

17. SETTLEMENT OF DISPUTES:

AMICABLE SETTLEMENT: UNDP and the Individual contractor shall use their best efforts to amicably settle any dispute, controversy or claim arising out of the Contract or the breach, termination or invalidity thereof. Where the parties wish to seek such an amicable settlement through conciliation, the conciliation shall take place in accordance with the Conciliation Rules then obtaining of the United Nations Commission on International Trade Law (“UNCITRAL”), or according to such other procedure as may be agreed between the parties in writing.

ARBITRATION: Any dispute, controversy or claim between the parties arising out of the Contract, or the breach, termination, or invalidity thereof, unless settled amicably, as provided above, shall be referred by either of the parties to arbitration in accordance with the UNCITRAL Arbitration Rules then obtaining. The decisions of the arbitral tribunal shall be based on general principles of international commercial law. For all evidentiary questions, the arbitral tribunal shall be guided by the Supplementary Rules Governing the Presentation and Reception of Evidence in International Commercial Arbitration of the International Bar Association, 28 May 1983 edition. The arbitral tribunal shall be empowered to order the return or destruction of goods or any property, whether tangible or intangible, or of any confidential information provided under the Contract, order the termination of the Contract, or order that any other protective measures be taken with respect to the goods, services or any other property, whether tangible or intangible, or of any confidential information provided under the Contract, as appropriate, all in accordance with the authority of the arbitral tribunal pursuant to Article 26 (“Interim Measures of Protection”) and Article 32 (“Form and Effect of the Award”) of the UNCITRAL Arbitration Rules. The arbitral tribunal shall have no authority to award punitive damages. In addition, unless otherwise expressly provided in the Contract, the arbitral tribunal
shall have no authority to award interest in excess of the London Inter-Bank Offered Rate ("LIBOR") then prevailing, and any such interest shall be simple interest only. The parties shall be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such dispute, controversy or claim.

18. LIMITATION ON ACTIONS: Except with respect to any indemnification obligations in Article 9, above, or as are otherwise set forth in the Contract, any arbitral proceedings in accordance with Article 17, above, arising out of the Contract must be commenced within three (3) years after the cause of action has accrued. The Parties further acknowledge and agree that, for these purposes, a cause of action shall accrue when the breach actually occurs, or, in the case of latent defects, when the injured Party knew or should have known all of the essential elements of the cause of action, or in the case of a breach of warranty, when tender of delivery is made, except that, if a warranty extends to future performance of the goods or any process or system and the discovery of the breach consequently must await the time when such goods or other process or system is ready to perform in accordance with the requirements of the Contract, the cause of action accrues when such time of future performance actually begins.

19. PRIVILEGES AND IMMUNITIES: Nothing in or relating to the Contract shall be deemed a waiver, express or implied, of any of the privileges and immunities of the United Nations, including its subsidiary organs.
