POST DISASTER NEEDS ASSESSMENT (JITU PASNA) AND R3P COVID 19 LOT 1: RIAU, WEST JAVA, EAST JAVA, NTB LOT 2: CENTRAL SULAWESI, GORONTALO DAN PAPUA

A. BACKGROUND INFORMATION

The Corona virus began to enter Indonesia -a country with the fourth largest population in the world- officially in early March 2020. The massive spread of the virus caused a decline in economic activity, and the pandemic has been infected in various sectors such as public services, household consumption, investment, and financial institutions in Indonesia. There is a threat of loss of community income because they cannot work to fulfill their daily needs, especially for poor and vulnerable households and the informal sector. The decline also occurred at MSMEs. This business actor cannot conduct his business activities so that his ability to fulfill credit obligations is impaired. The corporate sector has also been disrupted, especially in manufacturing, trade, and transportation. The disruption will reduce business performance so that it causes the termination of employment and even bankruptcy. Financial institutions also have the potential to experience liquidity problems, causing depreciation of Indonesian currency, volatility in financial markets, and capital flight. the estimated 40 per cent of the population amounting to about 180 million people living just above the national poverty line and vulnerable to external shocks. Aside to an urgent need in health-related procurement ranging from PPE to rapid test kits and medicine, the COVID-19 crisis is also drawing attention to the already overburdened public health systems in this country, and to the challenges faced in protecting health workers. It highlights the strong need for sustainable investment in health systems, including in the health workforce, and for decent working conditions, training and equipment, especially in relation to personal protective equipment and occupational safety.

On 20 July 2020 The Government has released the presidential regulation no. 82 /2020 on the COVID-19 response Committee for Covid-19 and the National Economic Recovery (NER/PEN). The Regulation aims to provide an integrated strategic policy for COVID-19 mitigation and national economic recovery. The government also allocates Rp 366.5 trillion (US\$24 billion) towards accelerating the NER/PEN program in the 2021 state budget following the various economic stimulus that have been launched in 2020 in response to the COVID-19 pandemic. In his state of the nation address at the Parliament on August 14, President Widodo said the budget would be allocated towards six fields, namely healthcare (Rp 25.4 Tn), social protection (Rp 110.2 Tn), Ministries/Institution and Regional Governments (Rp 136.7 Tn) for sectoral improvement, micro, small and medium-sized enterprises (Rp 48.8 Tn), funding for corporates (Rp 14.9 Tn), and business incentives (Rp 20.4 Tn).

B. SCOPE OF SERVICES AND EXPECTED OUTPUTS (applicable for both LOT)

The main objective of this assignment is to assist the Disaster Management Agency at national and sub-national level to assess the impact of COVID 19 and define and formulate a recovery strategy including estimating its financial costs: from restoration of services to complete rehabilitation and reconstruction of livelihoods and economy while ensuring resilience to future risks. Aside to provide technical support to the disaster management agencies at national and sub-national level, the selected organization/company is expected to also undertake a combination of secondary data research, primary data collection and community consultations.

No	Expected Outputs	Key Activities	Remarks
1	Detail Workplan	Detailed workplan.	Site visit reports can be provided by UNDP if required.
2	Draft Jitu Pasna and R3P	Data collection and analyse available documents Meeting, discussions with key stakeholders relevant to the assignment.	Draft report should be submitted in Indonesian.
3	Presentation material summarizing the result of the assessment and recovery plan	Finalization and submission of Jitu Pasna and R3P Submission of FEED study.	Final report and presentation material should be submitted in English and Bahasa Indonesia
