Services provided shall be reviewed based on completeness and compliance of the quotation with the minimum specifications described above and any other annexes providing details of UNDP requirements.

The quotation that complies with all of the specifications, requirements and offers the lowest price, as well as all other evaluation criteria indicated, shall be selected. Any offer that does not meet the requirements shall be rejected.

Any discrepancy between the unit price and the total price (obtained by multiplying the unit price and quantity) shall be re-computed by UNDP. The unit price shall prevail, and the total price shall be corrected. If the supplier does not accept the final price based on UNDP's re-computation and correction of errors, its quotation will be rejected.

After UNDP has identified the lowest price offer, UNDP reserves the right to award the contract based only on the prices of the services in the event that the transportation cost (freight and insurance) is found to be higher than UNDP's own estimated cost if sourced from its own freight forwarder and insurance provider.

At any time during the validity of the quotation, no price variation due to escalation, inflation, fluctuation in exchange rates, or any other market factors shall be accepted by UNDP after it has received the quotation. At the time of award of Contract or Purchase Order, UNDP reserves the right to vary (increase or decrease) the quantity of services and/or goods, by up to a maximum twenty-five per cent (25%) of the total offer, without any change in the unit price or other terms and conditions.

Any Purchase Order that will be issued as a result of this RFQ shall be subject to the General Terms and Conditions attached hereto. The mere act of submission of a quotation implies that the vendor accepts without question the General Terms and Conditions of UNDP herein attached as Annex 3.

<sup>3</sup> This contact person and address is officially designated by UNDP. If inquiries are sent to other person/s or address/es, even if they are UNDP staff, UNDP shall have no obligation to respond nor can UNDP confirm that the query was received.

UNDP is not bound to accept any quotation, nor award a contract/Purchase Order, nor be responsible for any costs associated with a Supplier's preparation and submission of a quotation, regardless of the outcome or the manner of conducting the selection process.

Please be advised that UNDP's vendor protest procedure is intended to afford an opportunity to appeal for persons or firms not awarded a purchase order or contract in a competitive procurement process. In the event that you believe you have not been fairly treated, you can find detailed information about vendor protest procedures in the following link: <http://www.undp.org/procurement/protest.shtml>.

UNDP encourages every prospective Vendor to avoid and prevent conflicts of interest, by disclosing to UNDP if you, or any of your affiliates or personnel, were involved in the preparation of the requirements, design, specifications, cost estimates, and other information used in this RFQ.

UNDP implements a zero tolerance on fraud and other proscribed practices, and is committed to identifying and addressing all such acts and practices against UNDP, as well as third parties involved in UNDP activities. UNDP expects its suppliers to adhere to the UN Supplier Code of Conduct found in this link: [http://www.un.org/depts/ptd/pdf/conduct\\_english.pdf](http://www.un.org/depts/ptd/pdf/conduct_english.pdf).

Thank you and we look forward to receiving your quotation.

Sincerely yours,

## Technical Specifications and Requirements

### Provision of reconstruction works for Police Station from Egorovca village, Falesti district – Law Enforcement Project

---

#### A. Project Description

Community policing is a concept and a model of institutional modernization of police, wherein the police force becomes more responsive to the needs of the community it serves. Within this concept the police and the community form a partnership to solve local problems, provide security and safety, prevent and deter crime, and report suspicious activities. The partnership between the police and community will be the basis for public interaction with the police and restore the community's confidence in the police officers' ability to be an effective, professional law enforcement body.

The commitment to change the way Police operate and to bring them closer to the community is reflected in many national policy documents. The Concept Paper on the Reform of the Ministry of Internal Affairs and its Subordinated and Decentralized Units (2010) proposed to focus on the implementation of the principles of community policing by delineating the competencies of the state and local police. The Police Development Strategy for 2016-2020 sets as a goal the implementation of the community policing concept, based on several priority directions: decentralization of authority, better communication skills, friendlier infrastructure, and a more strategic approach to prevention.

The support for the implementation of Community Policing concept in Moldova, designed and provided under the previous U.S. Government/INL-UNDP interventions, has enabled the Police to offer a more user-friendly environment for the community-police engagement by redesigning and remodeling police stations in two pilot areas (Chisinau and Singerei). Furthermore, previous interventions moved the community policing agenda forward by developing police bicycle patrolling capacities at the regional level.

The current interventions will seek to continue the work on both dimensions mentioned above. The use of police station space as a community-police collaboration tool will be further expanded under the current project component. Capitalizing on Chisinau and Singerei experiences, the next two pilot police stations to be transformed through this Project will further explore the potential of innovation (for instance, by using 'design thinking' and/or 'behavioral science' techniques) in rethinking the ways Police engage with the community and deliver services.

#### B. Scope of Works

UNDP seeks companies or a consortium of companies which have proven experience in carrying out construction/reconstruction works at highest quality requirements and standards. The scope of works is to carry out dismantling, external and internal finishing works, installation of internal electrical system, heating, ventilation and conditioning systems, CCTV networks, land improvement, preliminary and final commissioning of one (1) infrastructural project situated in Egorovca village, Falesti district.

Transportation of materials shall be the responsibility of the Contractor. Residues formed as a result of civil works undertaken will be evacuated by the Contractor to authorized dumps.

Detailed BoQ for required works are described in **Annex 4** and technical documentation **Annex 5** to the present Request for Quotation. The Contractor shall hold necessary labour, equipment, machinery, tools necessary for successful implementation of the contract and execute all mentioned works in accordance with local standards and regulations related to construction field and environment protection.

It is envisaged that the works will include the following activities:

- **Reconstruction works and installation of required equipment:** dismantling works, reinforcement works, external and internal finishing works, installation of electrical system, heating, ventilation and conditioning systems, CCTV systems, sewerage and heating networks, land improvement works etc.
- **Commissioning** of all supplied systems, equipment, materials and construction works including making required training and performance test measurements.

The Contractor shall ensure that all construction and installation activities are implemented in accordance with the Bill of Quantities, and national quality standards and requirements in constructions and are properly coordinated with representatives of building owners, local municipality, company which developed the Bill of Quantities exercising technical supervision role, and with UNDP Moldova representatives. Local authorities will assist the Contractor in obtaining and requesting approvals, as necessary.
