DEVELOPMENT OF AN SDG AWARENESS CAMPAIGN

BACKGROUND

The Government of the Republic of Namibia (GRN) remains committed to implementing the Agenda 2030 for Sustainable Development, including the Sustainable Development Goals (SDGs). Following the adoption of the SDGs by the UN General Assembly in September 2015, the GRN has embarked on a multi-pronged effort to raise national awareness and ownership on the SDGs. In September 2019, the UN Secretary-General launched the “Decade of Action”⁸ which calls for accelerating sustainable solutions to all the world’s biggest challenges, ranging from poverty and gender to climate change, inequality and closing the finance gap. The Namibia Statistics Agency (NSA) in 2019, successfully launched the SDG Baseline Report & Indicator Framework as well as the SDG Portal⁹. UNDP Namibia Accelerator Lab in 2020 launched the online SDG Hub, to provide the audience with the experience to showcase the interlinkages of the SDGs. Both the SDG portal and hub are online platforms designed as tools to measure and showcase Namibia’s diversity in achieving Agenda 2030.

OBJECTIVE AND BRIEF DESCRIPTION OF THE REQUIRED SERVICES FOR THE SDG AWARENESS CAMPAIGN

Considering the key outputs and goals of the SDG Portal and Hub, NSA and UNDP intend to develop content on the SDGs through an SDG Awareness Campaign to drive traffic to both the SDG portal and hub. The campaign should be aligned to the ongoing development of the SDG localization framework which will be developed and led by NSA in partnership with various stakeholders. The Online SDG Hub will showcase a variety of entrepreneurs, social innovators and disrupters who are currently undertaking sustainable development initiatives that contribute largely to the attainment of the SDGs.

The main objective will be to develop and implement an innovative digital marketing campaign and mainstream SDG awareness through the SDG online hub which will include;

5. A comprehensive action plan which creates an online community and brand awareness; and learning on the SDGs through local and relevant communication mediums across all 14 regions. The community engagement and awareness must range from climate change and its impacts, to the need to conserve and restore ecosystems to buffer extreme events and to information for target communities on learning/adopting sustainable livelihoods, with an aspect on empowering women and vulnerable communities,
6. Enhance the visibility of the SDG hub and its objective, concerning the new approach of integrating ecosystem centered and community-based approaches to sustainable development for the public sector, private sector and civil society. Promote the use of the SDG hub in a relatable and engaging manner.
7. Provide a campaign calendar, with key actions, dates and other related information, which should be run through the SDG Online hub.
8. Include ideas for developing knowledge products to build and strengthen the capacity at different levels for the effectiveness of awareness regarding the SDGs and community-based homegrown solutions to be highlighted.

⁹

Public engagement is a powerful mechanism for tracking progress and ensuring accountability of national development priorities, including the Agenda 2030. The successful implementation of the SDGs hence requires the active involvement of all citizens and stakeholders such as civil society, academia and the private sector. The online SDG Hub will be a platform for continuous and meaningful engagement of citizens on the SDGs. Hence, allowing citizens and institutions from across the country to track progress on the SDGs and to identify gaps, which will draw timely attention of policymakers to bottlenecks in the implementation. The online hub will further allow stakeholders to exchange experiences and best practices among each other, which will foster a national stakeholder dialogue and enable coordination among all entities working on the SDGs.

THE OBJECTIVES OF THE ONLINE SDG PORTAL
