

UNITED NATIONS DEVELOPMENT PROGRAMME
Consultancy

I. Position Information

Job Code Title: Options for Social Insurance Schemes for the Informal Sector and with emphasis on Women and Youths in South Africa

Pre-classified Grade: FIRM

Assignment Period: 6 weeks

Contract Period: 15th December 2020

Supervisor: Resident Representative UNDP

II. Context

The United Nations Development Programme (UNDP) is one of the leading global development agencies for transformational change. We help empower lives and build resilient nations so that they can withstand crisis and improve the quality of life for everyone.

UNDP in South Africa is a key partner to the country's vision of greater prosperity and improved lives. The overarching goal of the strategic partnership between the Government of South Africa and UNDP is to advance South-Africa's strategic priorities to work for a better South Africa, a better Africa and a better World.

Drawing from the Country's Medium-Term Strategic Framework (MTSF) 2019 – 24 and the United Nations Sustainable Development Cooperation Framework (UNSDCF) 2020-25, the UNDP's Country Programme Document (CPD) 2020-25 which articulates the Agency's contribution to the Government's development agenda focus on the following key areas for the next five years:

- i. Outcome 1: Advance poverty eradication in all its forms and dimensions
- ii. Outcome 2: Accelerate structural transformations for sustainable development

iii. Outcome 3: Strengthen resilience to shocks and crises

South Africa's population is estimated at 59.6 million, of which 51.1% are women, according to the mid-year Population estimates. With an Upper Bound Poverty line of R992 in 2015, 49.2% of adults live below the poverty line, a breakdown of which reveal 46.1% of males and 52% of female and those below the ages of 35 bearing the highest poverty burden¹. With a Gini-coefficient of 0.63 in 2014/2015, inequality is amongst the highest in the world with over half (52.6%) of all household expenditure accrued by the richest 10% of the population.² During the first quarter of 2020, unemployment rate increased to 30.1% from 27.6%, same period last year. Women faced levels of unemployment at 32.4% compared to men at 28.3% while the youth's unemployment rate hit 41.7%. With the overall expanded unemployment rate of 39.7%, women unemployment was 43.4% ³compared to men at 36.5%. Eastern Cape, Free State, Mpumalanga and North West recorded the highest unemployment rates at 40.5%, 38.4% and 33.3% and 33.2% respectively with Gauteng's unemployment rate at 31.4%

With the advent of the COVID-19 pandemic, poverty and inequality worsened. The Socio-Economic Impact of COVID-19 study by the UN under the technical leadership of the UNDP stated that those in the Informal sector, unskilled and semi-skilled workers, and those with low levels of education and low access to technology were the hardest hit. Black Africans and female-headed households dominate in all the categories of the most affected by poverty and COVID-19.

III. Functions / Key Results Expected

Objective

The overall objective of this assignment or study is to build resilience to shocks for individuals working in the informal sector particularly women and hence contribute to policy response of poverty and inequality reduction in South Africa. The Study will also contribute to addressing the development challenges outlined in the Medium Term Strategic Framework 2019-24 and also in the attainment of the Sustainable Development Goals (SDGs) 5 (women empowerment) directly and all other goals indirectly especially Goals 1 (end poverty), 2 (end Hunger), 3 (Health for All), 4 (Life-long Quality Education), 8 (Decent Jobs) and 10 (Addressing Inequalities).

² Inequality Trends in South Africa – A multidimensional diagnosis of Poverty, 2017 Statistics South Africa

³ StatsSA QLFS Q12020 – Women Labour Force 12,776,000; unemployed 5, 5 42,000; not economically active 6,849,000

Scope of Work

1. Document the level of informal sector activities at the nation and provincial level including analysis but not limiting to:
 - Information on income levels...will be useful in determining affordability...issues of financial barriers
 - predictability/regularity of incomes...useful in determining payment options
 - How the vulnerabilities result in financial, legal and administrative barriers to social insurance coverage
 - social security needs and priorities
 - Gender dimensions.
2. Analyse by sectors, the prevalence of informal sector economic activity and predominant locations. What is the representation by gender, demographics (including age and race) and people with disabilities?
3. Determine the vulnerability level of working in the South Africa Informal sector by province, sectors and gender and other relevant dimensions, identifying key factors that are contributing to vulnerability. Propose means of mitigating the vulnerabilities.
4. Determine the characteristics of informal sector workers that have social insurance and the types of existing social insurance specifying on design features, target group, financing arrangements, benefit levels, type of contingencies covered, institutional arrangements/service providers, administrative processes and innovations that ease participation and reach. The consultant is also expected to discuss barriers to coverage and gaps in existing systems amongst other relevant aspects. Elaborate on how this affects resilience to shocks and business economic activity life span or survival.
5. Based on evidence, (from surveys, cluster group discussion, one to one interviews, international experiences, standards and practices etc.) what are the practical contributory and payment/service delivery models and scenarios that can be used in South Africa? Present 2 or 3 options and arguments for the most preferred. Amongst other aspects, the consultant is expected to clearly provide:
 - guidance on what should/would inform these options?
 - expected dimension of the options in terms of – target group, contingencies covered etc.
 - Costed options to demonstrate affordability and coverage
6. Provide the institutional and procedural modalities for setting up and establishing the preferred social insurance model. The role of all partners to be explicitly presented.

7. Provide the institutional and procedural modalities for monitoring resilience and the success of the proposed social insurance model in the informal sector.
8. Provide a capacity development strategy and plan on the requisite capacities for the effective implementation of the preferred Social Insurance mode in the informal sector.

Expected Outputs and Deliverables

1. Inception Report
2. A draft report by 2nd week November on the ToR including:
 - Informal Sector Analysis,
 - the survey and
 - Social Insurance Models scenarios with justifications for the most practical and preferred
 - Institutional and process modalities
 - Capacity building strategy and plan
3. Finalised reports incorporating feedback from UNDP and other reviewers *before* second week of December 2020
4. A PowerPoint presentation with highlighting key messages on the deliverables
5. 2 or 3 pages of infographics on key findings
6. The consultant(s) will be requested to physically present the draft and final reports to groups of stakeholders and incorporate feedback.

Methodology

The consultant(s) are expected to be innovative and to use a variety of appropriate qualitative and quantitative tools such as surveys, cluster group discussion and one to one discussion to determine the focus groups, scope, coverage and modalities of the social insurance model. Further, the consultant is expected to scan the insurance terrain and gather information from service providers about modalities and steps for operation.

Including but not limiting to: All analysis and recommendations in this study to be done with gender and youth perspectives.

- Surveys, and other online tools
- Cluster group meeting, interviews
- Literature review – enabling legislation, previous and related studies etc
- The consultant is expected to bring in a global dimension of good practises and not so good practises from other countries to learn from

Reporting Arrangement

The consultant will report to the UNDP Resident Representative through the Economic Advisor.

Duration of the Work

Not more than 6 weeks

IV. Impact of Results

The impact of the consultancy is in setting up of the Social Insurance Scheme and building resilience in the informal sector against economic, social and political shocks to the informal sector amongst youths and women.

V. Competencies and Critical Success Factors

Corporate Competencies:
