## SECTION 5. TERMS OF REFERENCE

### DIGITIZING THE UNDP PUBLICATION BLIR VÄRLDEN BÄTTRE?

#### BACKGROUND OF THE ASSIGNMENT

As a part of the UN development agenda, UNDP Sweden published the book *Blir Världen Bättre?* (Is the world getting better?) for the first time in 2005. The publication is written by Staffan Landin and Mikael Botnen Diamant and uses up-to-date statistics to describe positive developments in the world over the past few decades. The book describes the progress of the Millennium Development Goals and the Global Goals and how they light a path to a sustainable future for both people and planet.

*Blir Världen Bättre?* has become a flagship UNDP product and much-appreciated teaching material among both teachers and students in upper secondary school in Sweden. Since 2005 the book has been published in seven updated and revised editions and hard copies have been distributed to high schools all over Sweden as teaching material. The content is also available on the Globala Målen website as a downloadable PDF. Here, teachers can take advantage of pedagogic school material that has been developed to supplement the book when teaching sustainable development.

Now, our ambition is to digitize *Blir världen bättre?* and make it available online as an open, educational resource and experiential learning tool for young adults and professionals working with sustainable development. We want to move away from static graphs and texts and take users on a digital journey where they can immerse themselves in a world of up-to-date facts, interactive statistics and stories about the state of the world.

The awarded contractor will play an important role in shaping the final product with their expertise, creative ideas and suggestions. UNDP Sweden will contribute by providing guidance, ideas and knowledge.

#### Target audience

The target audience for the digital learning tool are in the following order:

1. Young adults.
2. Professionals working with sustainable development and general public interested in sustainable development.

#### SCOPE OF WORK AND DELIVERABLES

##### **In broad terms, the contracted service provider will:**

- Develop, design and technically implement an original, innovative and interactive digital learning tool for young adults and working professionals who wish to learn about sustainable development. This tool should reflect, without necessarily being limited to, UNDP Sweden's objectives with digitizing *Blir världen bättre?* (see Annex 1, Objectives and guidelines for digitizing *Blir Världen Bättre?*).

##### **More specifically, this work will include the following deliverables:**

- Source and contact representatives from the target audience and conduct initial user research as well as continuous user testing of both prototype and the beta-version.
- Development of overall concept, visual design profile of the digital learning tool, including a style guide and/or annotation for information such as: colors, typography rules, hover states, animations, grid systems, spacing etc.<sup>2</sup>

---

<sup>2</sup> UNDP will give guidance on the desired stylistic direction and constraints that should be adhered to (brand

- Development, design and technical implementation of around 50 - 70 interactive data visualizations (infographics/graphs or equivalent), linked to open API's and and/or other creative and engaging ways of communicating data and information to users.
- Development, design and technical implementation of thematic knowledge sections which have a clear pedagogical perspective, elements of gamification and dynamic and engaging design.
- Production of 10 - 15 short story videos or animations with voice-over in Swedish (1-3 min). Content and basic ideas will be provided by UNDP Sweden.
- Migrate the finished learning tool to the UNDP Sweden owned URL *blirvarldenbättre.se/.com*, secure hosting, ensure SEO and provide server suggestions with appropriate capacity.<sup>3</sup>
- Maintenance of the interactive tool and its functions during the first three months from launch date (maintenance does not include web site redesign or development).
