When necessary and if stated in the BDS, UNDP may invite technically responsive bidders for a presentation related to their technical proposals. The conditions for the presentation shall be provided in the bid document where required.</p> <p>30.2 In the second stage, only the Financial Proposals of those Bidders who achieve the minimum technical score will be opened for evaluation. ### A. BACKGROUND INFORMATION

The United Nations Development Programme (UNDP) and the United Nations Capital Development Fund (UNCDF), through a joint programme with the United Nations University Institute for Environment and Human Security (UNU-EHS), and in close collaboration with key stakeholders from the government, public, private sector and other development partners, aims to address the challenges of post disaster financing through the workstreams envisaged in the Pacific Insurance and Climate Adaptation Programme, henceforth referred to as “the Programme”. The Programme has an inception phase of 2 years and will focus on building climate disaster resilience in Fiji and Vanuatu through innovative, inclusive insurance products/services and climate disaster risk financing (CDRF) instruments, including human centric product design, targeted insurance awareness and capacity building, and digital literacy campaigns.

The Programme is aligned to the United Nations Pacific Strategy, UNCDF global strategies and the respective country national development plans.

### B. OBJECTIVES:

Through the Programme, specific attention will be given to the development and implementation of innovative CDRF products and services, including parametric insurance, that will improve the financial preparedness of households, communities, small businesses, organisations and governments towards climate change and natural hazards in Fiji and Vanuatu, through a combination of stakeholder engagement, co-creation of solutions, awareness and capacity building, innovative financing options and digital linkages – with a robust interface to the 2030 Sustainable Development Goals.

Specific attention will be given to the development of the right services to empower and target **key customer segments** (women, youth, and micro-small-and medium-sized enterprises (MSMEs)) and the Programme will work across **key sectors** such as Agriculture, fisheries, retail and tourism.

To achieve this objective, the implementation strategy is organized into four **workstreams**: Enabling Policy & Regulation, Open Digital Payment Ecosystem, Inclusive Innovation and Empowered Customers with activities under each workstream to achieve specific outputs

The objective of these terms of reference is to identify and select high quality contractors capable of providing technical assistance to the Programme and partners for reliable, agile and efficient delivery of Programme outputs.

This solicitation is for a long-term agreement (LTA) for two years. “LTA” refers to a mutual arrangement whereby the consultant firms will provide services as required, over a specific period. An LTA specifies the unit price, allowing for a framework agreement to be used when the contractors’ services are needed.

### C. SCOPE OF WORK
