

RESPONSE TO BIDDER #1

Consultancy - Updating the Bahamas National Determined Contributions

Project Title: *The Bahamas Climate Promise*

Country: Bahamas	Reference number: 73107	e-mail :- procurement.jamaica@undp.org
------------------	-------------------------	--

- **Question:** The RFP mentions that “The firm will be required to operate from within The Bahamas for the duration of the consultancy”. We understand that foreign firms are allowed in the process, so would this mean that all of the members of the experts’ team are expected to be based in The Bahamas during the assignment, or could the Consultant propose a mixed team of experts considering international and Bahamas-based experts?

✓ No all the members are not required to be based in The Bahamas during the consultancy. The firm however must have representation in the Bahamas for the duration of the consultancy and as such a mixed team of experts considering international and Bahamas-based experts will be acceptable.
