Ref. 862-2020-UNDP-UKR-RFP-PS4SDGs Development of the online Impact Investment Platform

December 2, 2020, 15:00, Zoom meeting

№	Question	Answer
1.	Minimum requirements to the company/ organization is 5 years in the field as per TOR. Will the company registered 1 year ago be regarded as compliant	Minimum presence on the market is 5 years, so the company which is registered less than 5 years ago may not be considered as qualified.
2.	How to apply in case of Joint Venture / Consortium?	Both companies should correspond to minimum requirements, formal agreement of intentions should be signed by the parties, with clear indication of the leading company and the distribution of the workload. Registration and other documents should be provided for both JV participants.
3.	What is regarded as the proof of the previous relevant experience? Contracts with previous clients? In which field?	There is no need to provide copies of the contracts, you should fill in corresponding clause of the submission template, providing information about projects, similar in nature (software development, on-lint platforms, web market places, etc.)
4.	Documents to prove financial sustainability	Balance and income sheets as per local legislation or audit reports (if available). Turnover to be calculated and signed by the responsible staff member.
5.	Will the experience of both JV participants be summed up? Will the documents, such as financial balance sheets be evaluated for both companies?	Yes, the experience will be evaluated as a whole, documents and company profiles will be evaluated separately, but they should correspond to minimum requirements of the TOR.
6.	Can be experience of development of a web-market place with a purpose sell goods considered as relevant to the requirement "Experience in the creation of at least one web-marketplace"?	Yes
7.	Do you have more information on Module 5, in particular, machine learning?	At this moment, all technical specification is mentioned in the ToR. There is no need to develop this module, but rather adapt and integrate it. The Module makes content analysis of projects and assesses achievements made by each of projects in each of 17 SDGs.
