

Questions & Answers Round 2

Request for Proposal (RFP) Ref. #: UNDP-CB-RFP-2020-016 Proposal for the Inclusive Governance and Fragility Research Project

1. **Q:** Since the proposals will be submitted via the online portal, could you please advise on how we are to send the passwords to UNDP? Should it be by separate email or should the password be included in the narrative proposal?

A: The password should be submitted also via the online portal. Please note that only complete applications submitted through the online portal will be considered. The password can be submitted in a separate file or included in the narrative of the technical proposal but always separate from the financial proposal.

2. **Q:** Does the narrative proposal also need to be password protected?

A: No. Only the financial proposal needs to be protected.
