

Supplying and Installation of Medical Waste Treatment Unit in Tikrit Teaching Hospital -Salahadeen Governorate

1. Project background

The United Nations Development Fund executed a project for the rehabilitation of Tikrit Teaching Hospital. As the project of rehabilitation in the final stages of completion, the Department of Electricity requested the UNDP to supply medical equipment and furniture. As the hospital is very big and have a lot of facilities it requires a lot of equipment which imposes funding issues.

As a contribution to solve the supplying of medical equipment issue UNDP is trying to supply as much as possible and this proposal is part of this endeavor to supply medical waste treatment unit.
