DEMOCRACY STRENGTHENING IN ZAMBIA (DSZ)

REPUBLIC OF ZAMBIA

Background

- Zambia will hold the next General Election on 12 August 2021 as provided for in the Constitution.
- Past election reports have pointed out the need for increased voter education to promote awareness among Zambians about the importance of active citizenry in electoral participation; most reports put heavy emphasis on the need to increase this participation for especially women, youth, People with Disabilities (PWDs) and rural voters.
- The Needs Assessment Mission (NAM), conducted by the United Nations in 2018, identified the need for, inter alia, increased voter education and civic engagement, and promoting peace ahead of the 2021 elections.
- In response to these recommendations, UNDP established the *Democracy Strengthening in Zambia* (DSZ) project, which is a three-year multi-donor project aligned with the national priorities enshrined in the 7th National Development Plan 2017-2021 (7NDP); the latter, in which the government pledges to “*promote transparency, accountability, citizen participation as well as strengthen governance institutions*”.
