## ANNEX 1: SCHEDULE OF REQUIREMENTS

In the light of the COVID-19 pandemic, the Ministry of Health and Wellness (MOH) felt the need to scale up its capacity to process a large number of tests on a daily basis and to provide a timely and effective reporting capability across all COVID hospitals and quarantine centres in the country. Within this context, through the support of the UNDP in Mauritius, the Central Health Laboratory secured an Electronic Laboratory Information System (namely OpenELIS Global).

In this context and with the upsurge of cases in Mauritius as from early March 2021, the MOH will require additional laptops to substantially increase data entry and monitoring of various COVID-19 tests being carried out.

The company awarded this RFQ will work with the representatives of the MOH to install and commission the equipment and provide necessary after-sales support to ensure sustainability of the equipment.
