

Request for Clarifications No. 1

UNDP-ITM- RFP-2021-007 - Proposal for Services to monetize the Internet Protocol version 4 (IPv4) number block registration rights.

This amendment serves to inform interested bidders about the following change:

- **Annex 2, Section 2 – Scope of work** should now read *“We are selling one single medium block of (/16) addresses which contain 65,000 addresses.” to replace the previously published: “two medium sized (/16) and one small sized (/24) IPv4 number blocks rights for a total number of 65,661 usable IPs.”*
