

Terms of Reference for

Local Framework Based Consultancy Services for Development of National Adaptation Platform

1 BACKGROUND

The Climate Change and Environment Portfolio's strategy is focusing on promoting change at scale through investing in national capacity to respond in addition to piloting and prototyping development solutions that have the potential to lead to transformational change. Also, a key element of the strategy is to apply the integrated ecosystem approach, to help establish mechanisms to value ecosystem services with a view to address the market failures to fully reflect the true value of ecosystem services.

The portfolio strategy requires the establishment of programmatic partnerships, as a cross-cutting area, 'with different ministries, international organizations (inter alia UNEP, EU, UNIDO, WB, EBRD and FAO), universities and CSOs, collaboratively adding value to the ongoing work of these stakeholders. The Climate Change and Environment (CCE) Portfolio focuses on three programmatic areas that complement each other: 1-Natural Resource Management contributing to sustainable environment management and conservation of natural resources in production landscapes, within the general framework of the ecosystems approach; 2- Climate Change and Disaster Resilience (including chemicals and waste) strengthening institutional capacities for analysis and risk management for resilience with a specific emphasis on climate change, and 3- Cooperation with relevant stakeholders to promote energy efficiency and renewable energy.

The Enhancing Adaptation Action in Turkey Project under CCE Portfolio is aiming to build societal resilience by strengthening climate change adaptation, particularly at sector and urban level.

The specific purpose of this Project is to establish an enabling environment for climate change adaptation in Turkey by developing the policy, technical and operational baselines, including (i) better decision making tools for national climate change adaptation policies, (ii) urban adaptation planning solutions (urban adaptation strategies and action plans), (iii) capacity building and networking activities for climate change adaptation with the EU and the international community, and (iv) a climate change adaptation grant programme to implement climate change adaptation action.

Estimated results:

- Result 1. Develop better decision-making tools for climate resilient sustainable development.
- Result 2. Develop adaptation and resilience planning in urban areas
- Result 3. Develop capacity for climate change adaptation action
- Result 4. Improve operational capacity for climate change adaptation action through a climate change adaptation grant programme.

In the view of the above, a consultant will provide framework-based consultancy services for supporting development of National Adaptation Platform within the scope of the project.

2 OBJECTIVE AND SCOPE

The overall objective of Enhancing Adaptation Action in Turkey Project is to build societal resilience by strengthening climate change adaptation, particularly at sector and urban level. As an important outcome of the project, Turkey's National Adaptation Platform that will be developed to facilitate the collection, sharing, and use of information on the impacts of climate change, vulnerabilities, and adaptation, and to create a consistent and up-to-date database for all.

The specific objective of the assignment is providing consultancy services to Enhancing Adaptation Action in Turkey Project on supporting development of National Adaptation Platform.

UNDP will mobilize an Individual Consultant (IC) as Climate Change Expert to provide professional support on the fields mentioned above on a framework contract basis.

3 DUTIES AND RESPONSIBILITIES OF THE INDIVIDUAL CONSULTANT

Within the scope of the assignment, IC shall perform the following generic functions (but not limited to):

- Supporting content management of National Adaptation Platform
- Supporting visualization of climate change impact and vulnerability assessment results at national and local level
- Supporting the preparation of the updated National Adaptation Strategy and Action Plan (NASAP), Urban Adaptation Strategies and Action Plans (UASAPs), adaptation plan implementation guidelines for priority sectors
- Conducting analyses/assessments and preparing technical reports and other project related documents/materials
- Conducting quality checks and editing the reports and other related documents/materials
- Supporting other activities including but not limited to desk reviews, assessments, preparation and organization of trainings, conferences, study visits, interviews, surveys, outreach and dissemination materials, monitoring and evaluation of project activities etc.

The above-mentioned duties and responsibilities are indicative and subject to further detailing through specific service requests to be made by UNDP during the contract duration. If required by UNDP, the IC may be requested to provide additional consultancy services on topics related to her/his consultancies area for & within the budget of other projects under Climate Change and Environment Portfolio. The detailed tasks will be provided in specific service requests.

4 INSTITUTIONAL ARRANGEMENTS

UNDP will provide to IC all relevant background documents. UNDP is not required to provide any physical facility for the work of the IC. However, depending on the availability of physical facilities (e.g. working space, computer, printer, telephone lines, internet connection etc.) and at the discretion of the UNDP and relevant stakeholders, such facilities may be provided at the disposal of the IC. UNDP will facilitate meetings between the ICs and other stakeholders, when needed.

All document and data provided to the IC are confidential and cannot be used for any other purposes or shared with a third party without any written approval from UNDP.

The IC shall report to the Project Manager of Enhancing Adaptation Action in Turkey Project and work in close collaboration with the Project staff.

After submission of the deliverables elaborated in specific Service Requests, UNDP may have some comments and revision requests on the deliverables. The IC shall address the comments of UNDP and shall revise the deliverables as per the comments within at most 10 calendar days following notification of comments by UNDP to the IC.

5 EXPECTED OUTPUTS AND DELIVERABLES

The IC will work as a consultant and expected to invest (at maximum) **120 working days** throughout contract duration.

The framework contract will be executed based on assignments detailed in each specific service requests to be prepared by UNDP. Service requests will be developed by the Project Manager of Enhancing Adaptation Action in Turkey Project and the time schedule for each assignment will be determined by UNDP in consultation with the IC. Service request will be effective upon signing and return by the IC.

The Assignments may include interim and final deliverables, which will be defined in the specific service requests to be made by UNDP to the IC within the scope of Terms of Reference.

Reporting:

The IC will be responsible to the Project Manager of Enhancing Adaptation Action in Turkey Project for the completion of the tasks and duties assigned. The reports shall be submitted to the Project Manager for final approval. All the reports are subject to approval from the Project Manager to realize the payments to the IC.

The language for all reports shall be in English.

The IC shall be solely liable for the accuracy and reliability of the data provided, links to sources of information used.

The title rights, copyrights and all other rights whatsoever their nature in any material produced under the provisions of this ToR will be vested exclusively in UNDP Turkey CO.
