Bid Bulletin 1
RFQ-051-PHL-2021 : Security Tools and Equipment

Dear All,

We are pleased to share the responses to queries received via email:

	Queries	Responses
1	Can you please clarify the specification for the IR Camera. Spectral Waveband: 8 – 14 µm Field of View: 10°- 20°- Does it mean that you're looking for zoom lens? Or 1 of the options?	We are referring to the digital zoom capability.
2	Can you please clarify the specification for the required Detector Type: UPFA Sensor / Resolution 350 x 250- What is a UPFA Sensor? I'm not familiar with this resolution. Did you mean QVGA (384x288)? Provide resolution in QVGA	Kindly disregard reference to UPFA since it only aimed to refer to focal-plane array benchmark for thermal imaging detection. Please give preference to the camera resolution at QVGA 384x288.
3	Can you please clarify the specification for the required control Interface: RS 455 serial data link- Did you mean RS422? Provide interface in RS455 or RS422 is RS455 and RS 422 same? They are compatible.	The bidder has proposed either RS455 or RS422 control interface.
4	In the Detection- Vessel, can you clarify the specification mentioned in RFQ since	The minimum distance should be 5 kilometers.

*Empowered lives.
Resilient nations.*

	min 8nm to max 20 nm it is impossible to get to these ranges.	
5	In the Human detection, can you clarify the min 3nm to max 10 nm since 19/35mm lens with a resolution of QVGA is not possible.	The minimum distance should be 2 kilometers.

Please also note that submission of quotation is extended until **18 June 2021, 11.59PM** Manila time. Kindly send you quotation and other supporting documents to bids.ph@undp.org.

Please be guided accordingly.

Thank you
