Securing Contracting Services to Establish and Refurbish a specialized court in Nablus Court building for the benefit of cases of Violence Against Women and One Stop Center.

Programme Name: SAWASYA II / **Programme No:** PAL 00111588

Projects Name: 1. Establish and Refurbish a specialized court in Nablus Court building for the benefit of cases of Violence Against Women
2. Establish and Refurbish of One Stop Center for use by the Palestinian Civil Police in Nablus Police Station.

Location: Nablus City

1. Preface

This document sets out the statement of work to **Secure Contracting Services to Establish and Refurbish a specialized court in Nablus Court building for the benefit of cases of Violence Against Women and One Stop Center in Nablus for use by the Palestinian Civil Police in Nablus Police Station**. The implementation will be managed and supervised by the United Nations Development Programme / Programme of Assistance to the Palestinian People "UNDP/PAPP" (the Client) and financed by the UN Women.

2. Introduction

Violence, especially against women and girls, is a worldwide systematic human rights violation that has increased. Globally, 243 million women and girls aged 15 to 49 have suffered sexual and/or physical violence by an intimate partner in the last year. In the West Bank and Gaza Strip, one in three women experienced violence by their husbands, and 44 per cent of girls aged 12 to 17 years old have been subjected to physical violence, according to a study by the Central Bureau of Statistics.

About 37% of women who ever been married were exposed to one form of violence by their husbands; 29.9% in the West Bank compared to 51.1% in Gaza Strip. The rate of those who were exposed to psychological violence "at least for one time" among those women out of violated women was 58.36%, 55.1% were exposed to economical violence, 54.8 were exposed to social violence, 23.5% were exposed to physical violence and 11.8 were exposed to sexual violence.

Two third of women who were exposed to violence prefer silence and refuge to household as a second choice; 30.2 % of exposed women who were ever married and were exposed to violence by their husbands have had recourse to the house of one of the brothers or sisters and 65.3% preferred to remain silent regarding the act of violence that were practiced against them by their husbands, while the rate of women who have been exposed to violence and headed to women institutions or centers soliciting advise did not exceed 0.7%

The right of women and girls to live free from violence is a fundamental principle of international human rights law established by the universal and regional human rights systems and goes hand in

hand with legal duties relating to eradicating violence and discrimination. These duties are based on the fundamental right to equality, non- discrimination, life and physical integrity.

In this context, UN Women within SAWASYA II programme plans to support the High Judicial Council (HJC) to establish and refurbish a specialized court in Nablus Courthouse building, for the benefit of violence against women (VAW) program and the use of VAW specialized judges to ensure effective victim protection during the legal process, through free legal aid and support in court, not having to meet the defendant when appearing in court, and providing complete privacy to encourage the women subjected to violence to get their rights by law through the court.

3. Objectives

The projects aim to provide access to justice for the women subjected to violence in the community of Nablus Governorate.

4. Description of the projects:

4.1 Nablus Courthouse:

The building of Nablus courthouse consists of three floors (ground, first and second) and a basement that used as a parking and partially for archiving issues. To establish a special court that will deal with the cases of violence against women, new modifications should be done in the three floors (ground, first and second) to accommodate the facilities of the court and to provide high privacy level for the victims. As the targeted rooms are used for archiving purposes now, an intervention will be done in the parking (basement) to establish archive department instead of the four rooms, in addition to supply and install archive mobile. The interventions are summarized as follows:

1) Ground floor:

- Rehabilitating the side entrance that is used by judges – to ensure it is accessible for women survivors of violence, including women with disability;
- Inserting a partition at the entrance to ensure privacy for cases that enter the court;
- Installing all necessary protection systems based on the needs of the court, such as cameras, fire alarm, fire-fighting system, etc.;

2) The first floor:

- Construct a partition at the entrance of the floor to ensure privacy of women heading to the court;
- Rehabilitation of the two agreed upon rooms, including supplying offices and furniture, as required by the court team in coordination with Un Women and UNDP/PAPP.
- Build a partition at the entrance of the two rooms (made of wood and glass) to be used as reception and waiting area;
- Rehabilitating the bathroom and kitchen
- Installing the required systems such as access control, surveillance, fire alarm, firefighting, air-conditioning and ventilation, public announce and voice alarm, etc.;

3) The second floor:

- Build a partition at the entrance of the floor to ensure privacy of women heading to the court;
- Rehabilitation of the two agreed upon rooms, including procuring offices and furniture, as required as required by the court team in coordination with Un Women;
- Adding a partition at the entrance of the two rooms (made of wood and glass) to be used as a waiting area;
- Rehabilitating the bathroom and kitchen.
- Installing the required systems such as access control, surveillance, fire alarm, firefighting, air-conditioning and ventilation, public announce and voice alarm etc.;

4) Basement (Parking) floor:

1. Rehabilitation of a space with an area of about 150m² to be used as an archive
2. Refurbishing 2 halls including inserting partitions, doors etc.
3. Installing the required systems such as access control, surveillance, fire alarm, firefighting, air-conditioning and ventilation, public announce and voice alarm etc.;

4.2 Nablus One Stop Center:

The center locates in a second floor in building of Palestinian Mail near the Police Station, the area of the building is about 250m². The refurbishment includes amongst others the installment of partitions to prepare rooms; 2 interview rooms (one for children, one for women), 1 medical examination room (for forensic doctors and nurses), 4 sleeping rooms with shower room attached to it (one for women, one for juvenile, one for policewomen, one for policemen), 3 offices (one for the police, one for the social worker, and one for the prosecutor), children's playroom, reception area and WCs (one for women, one for men and one for disabled). In addition to that, the scope of the work would include the supplying and installing of an elevator.
