IC - Integrated Provincial Financing Strategy for SDGs in Punjab

A. Project Title: Mainstreaming, Acceleration and Policy Support for SDGs in Punjab

B. Background

In pursuance to United Nation’s General Assembly Resolution on Agenda 2030, National Assembly of Pakistan passed a resolution declaring Sustainable Development Goals (SDGs) as National Goals for Pakistan in February 2016. As part of Pakistan’s institutional arrangements under the “National Initiative on SDG”, Planning & Development Board, Government of the Punjab established Punjab SDGs Support Unit in June 2016.

In the light of the lessons learned from MDGs era, the government of Punjab under the National initiative on Sustainable Development Goals (SDGs) established Punjab SDGs Project at Planning & Development Board (P&DB) in collaboration with United Nations Development Programme (UNDP). The overall purpose of SDGs Project is to support provincial government and line departments for mainstreaming SDGs at provincial and district level—integrating different dimensions of SDGs into planning and budgeting processes.

C. Rationale and Objective

Mobilising resources, both domestic and global, to finance Sustainable Development Goals (SDGs) remains a key challenge for many developing countries. In response to the 2030 Agenda, while many countries have shown renewed interest in national development strategies most strategies and plans do not have concrete financing plans to fund their implementation. This is a critically missing link that leaves many SDGs underfunded.

In 2015, world leaders met in Addis Ababa, Ethiopia to agree upon a new global framework for financing the 2030 Agenda and the 17 Sustainable Development Goals (SDGs). At the heart of the [Addis Ababa Action Agenda](#) are national sustainable development plans and strategies supported by integrated national financing frameworks — or INFFs. Integrated national financing frameworks are a tool to finance national priorities and operationalize the Addis Agenda at the national level. A country’s sustainable development strategy lays out what needs to be financed. Integrated national financing frameworks spell out how the national strategy will be financed and implemented.

The 2030 Agenda has reinvigorated national development planning processes, as countries work to align their national development priorities with global goals for sustainable development. In Pakistan, a National SDGs Framework has been developed to serve as a guiding framework to highlight priority areas which can accelerate progress towards achieving SDGs. This framework was developed by the Federal SDGs Unit housed at Ministry of Planning Development and Special Initiatives (MoPD&SI) and approved by the National Economic Council. Similarly, provincial SDGs units also developed SDGs Frameworks to tailor the 2030 Agenda to the on-ground reality and needs of each province. In the context of Punjab, the Punjab SDGs Framework along with the Medium Term Development Framework (MTDF) 2018-2021 are the key strategic documents used to inform development planning for the province. Guided by the MTDF, Punjab's Annual Development Program implements the development vision of the government through strategic resource allocation which is aligned with the 2030 UN Agenda for Sustainable Development. However, the fiscal space for the provincial government can only expand to a limited extent each year which is often insufficient to finance SDGs and implement them effectively across the province. While other sources of funding such as donor funding and public private partnerships have gained traction over the years, there is still an imperative need to expand the fiscal space and develop concrete financing plans, models and tools to finance SDGs in Punjab. This can be achieved through the formation of an integrated finance strategy—a crucial component of the INFF. The Integrated Financing Framework consists of four building blocks for operationalization: (a) assessments and diagnostics of existing financing models, exploring all possible funding windows and identification of gaps in the context of Punjab. This also includes review of national and international models of SDGs financing, (b) review of Punjab legal and institutional frameworks; (c) design of the financing strategy and (d) provide a context based roadmap/mechanisms to implement/adopt these models in Punjab.

D. Scope of Work

The objective of this consultancy is to begin the development of the Integrated Provincial Financing Framework (IPFF) to bridge existing SDGs financing gaps in Punjab and effectively implement SDGs. The first phase of the consultancy is an inception phase that involves initial scoping work through a landscape review to understand Punjab's policy frameworks, institutions, stakeholders, financing trends and identify gaps; and uses other assessment tools that will provide a holistic picture of Punjab's financing models. The second phase of this consultancy involves formulation of the integrated financing strategy, and formulating a detailed roadmap for the provincial government on how to implement the financing strategy. Provincial and local government officials are the primary audience for materials that will be produced under this consultancy, but it can also be useful for international development partners and other stakeholders supporting governments in their efforts.

A financing strategy is at the core of an integrated national financing framework and provides a path for financing provincial SDGs priorities, development strategies and

plans, building on findings from the inception phase. It aims to bring together existing policies and institutional structures in support of financing provincial development strategies and plan, as these policies can often be fragmented. Therefore, an Integrated Financing Strategy can bring together these policies and instruments, promoting coherence both with sustainable development objectives and between different financing policy areas (public and private financing and macro-systemic issues). Further, the financing strategy can support the prioritization of financing policy actions that best respond to national goals, needs, and constraints. In the current context, financing strategies can also be used to support COVID-19 recovery plans.

Phase I: Inception Phase

Punjab Landscape Review

- Comprehensively review policy documents, institutional frameworks, financing policies, past financing trends and models to understand the development financing landscape of Punjab
- Identify relevant stakeholders, state and non-state, and develop a brief stakeholder mapping
- Actively engage with them to collect relevant documents and data for the Landscape Review
- Identify gaps in the financing of provincial development priorities
- Review of Punjab legal and institutional frameworks

Assessments and Diagnostics

- Run necessary assessment and diagnostics as highlighted in INFF guidelines from the Inter-agency Taskforce on Financing for Development
- Facilitate a process of financing dialogues that builds understanding and consensus about priorities for financing for building forward better across public agencies and with the private sector, civil society, and other development partners

Phase II: Integrated Financing Strategy and Implementation Plan

Develop a financing strategy that is coherent, sustainable and risk informed.

- Based on learnings from Phase I, identify financing policy objectives for Punjab government
- Propose actionable solutions to close financing gaps previously identified, overcome constraints, and maximize financing opportunities
- Develop an implementation plan of chosen financing policy solutions, provide estimates of timeframes that apply to measures and a detailed sequencing of interventions

- Develop a provincially led financing strategy that anchors support of all development partners and brings together all areas of financing policy (public, private, macro) in line with provincial priorities
- Ensure the strategy formation through active iteration and learning, guided by provincial governments in collaboration with other relevant stakeholders. This can be done by organizing at least two stakeholder consultation sessions
- Context based roadmap/mechanisms to implement/adopt these models in Punjab.

17. **SETTLEMENT OF DISPUTES:**

AMICABLE SETTLEMENT: UNDP and the Individual contractor shall use their best efforts to amicably settle any dispute, controversy or claim arising out of the Contract or the breach, termination or invalidity thereof. Where the parties wish to seek such an amicable

settlement through conciliation, the conciliation shall take place in accordance with the Conciliation Rules then obtaining of the United Nations Commission on International Trade Law ("UNCITRAL"), or according to such other procedure as may be agreed between the parties in writing.

ARBITRATION: Any dispute, controversy or claim between the parties arising out of the Contract, or the breach, termination, or invalidity thereof, unless settled amicably, as provided above, shall be referred by either of the parties to arbitration in accordance with the UNCITRAL Arbitration Rules then obtaining. The decisions of the arbitral tribunal shall be based on general principles of international commercial law. For all evidentiary questions, the arbitral tribunal shall be guided by the Supplementary Rules Governing the Presentation and Reception of Evidence in International Commercial Arbitration of the International Bar Association, 28 May 1983 edition. The arbitral tribunal shall be empowered to order the return or destruction of goods or any property, whether tangible or intangible, or of any confidential information provided under the Contract, order the termination of the Contract, or order that any other protective measures be taken with respect to the goods, services or any other property, whether tangible or intangible, or of any confidential information provided under the Contract, as appropriate, all in accordance with the authority of the arbitral tribunal pursuant to Article 26 ("Interim Measures of Protection") and Article 32 ("Form and Effect of the Award") of the UNCITRAL Arbitration Rules. The arbitral tribunal shall have no authority to award punitive damages. In addition, unless otherwise expressly provided in the Contract, the arbitral tribunal shall have no authority to award interest in excess of the London Inter-Bank Offered Rate ("LIBOR") then prevailing, and any such interest shall be simple interest only. The parties shall be bound by any arbitration award rendered as a result of such arbitration as the final adjudication of any such dispute, controversy or claim.

18. LIMITATION ON ACTIONS: Except with respect to any indemnification obligations in Article 9, above, or as are otherwise set forth in the Contract, any arbitral proceedings in accordance with Article 17, above, arising out of the Contract must be commenced within three (3) years after the cause of action has accrued.

The Parties further acknowledge and agree that, for these purposes, a cause of action shall accrue when the breach actually occurs, or, in the case of latent defects, when the injured Party knew or should have known all of the essential elements of the cause of action, or in the case of a breach of warranty, when tender of delivery is made, except that, if a warranty extends to future performance of the goods or any process or system and the discovery of the breach consequently must await the time when such goods or other process or system is ready to perform in accordance with the requirements of the Contract, the cause of action accrues when such time of future performance actually begins,

19. PRIVILEGES AND IMMUNITIES: Nothing in or relating to the Contract shall be deemed a waiver, express or implied, of any of the privileges and immunities of the United Nations, including its subsidiary organs.
