SECTION 5: SCOPE OF REQUIREMENT

Provision of Internet Services for UNDP Papua New Guinea Office on a Long-Term Agreement Basis (LOT 1 and LOT 2)

A. Background and General Considerations

1. Background

UNDP works closely with the Government of Papua New Guinea. The UNDP programmes are prepared in consultation with the Government, civil society organizations, United Nations organizations and other development partners. All activities falling within the Common Country Programme Document are nationally owned. These UNDP programmes are reflected in the UN Development Assistance Framework that includes the overall UN development assistance to Papua New Guinea over the coming four years.

Programme management arrangements are in place to ensure the focus remains on national priorities and local ownership and are based on existing national mechanisms and processes. For oversight, the Programme Steering Committee is the main entity to oversee implementation, monitoring and evaluation of the country programme. The Committee is co-chaired by the Secretary of the Department of National Planning and Monitoring and the UN Resident Coordinator and is comprised of senior officials of key government departments and the UN System. At the outcome level, Annual Work Plan Steering Committees, comprising of senior representatives of the implementing partners, the Department of National Planning and Monitoring, the United Nations agencies, donors and beneficiaries, oversee the implementation, monitoring and evaluation of the respective annual work plans.

Therefore, United Nations Development Programme (UNDP) would like to establish Long Term Agreement (LTA) with two reputable internet service providers (ISP) to provide internet services to Papua New Guinea Country Office (CO).

The total volume for the past 3 years (2018,2019 & 2020) for UNDP has been in excess of USD 217,611.52 (PGK 763,598.808).

UNDP PNG intends to establish Long Term Agreements (LTA's) with two Internet Service Provider (ISP);

LOT-1: Support the provision of the primary link without secondary competition.

LOT-2: Support the provision of the secondary link without secondary competition.

The initial contract will be signed for one year with the possibility of prolongation for additional two years subject to satisfactory performances and availability of funds.

2. Service Standards

The LTA service provider's performance shall be gauged using the following service standards during its performance review:

The two Internet Service Provider (ISP) shall be diversified in terms of the bandwidth provided.

- The bandwidth allocated to the UNDP PNG Country Office should be UNLIMITED and have the following:
 1. Primary Link Internet Service Provider – 50Mb for both download and upload.
 2. Secondary Link Internet Service Provider – 30Mb for both download and upload.

The following service standards are required from both ISPs:

- Required high quality uninterrupted services for 2022-2024 years period with lowest possible prices.
- The configuration shall be a dedicated connection either over Microwave link or Fiber Optics (Upload & Download) to the internet with a 1:1 contention ratio.
- The connection will be installed in a maximum delay of 14 days after the signature of the offer and the appropriate contract documents.
- The site should also be allocated with 6 x Public IP Addresses.
- Ability to revise agreed price, when market price goes lower then establish or agreed price.
- No prepayment but ability to make a payment to the services provider within 30 working days since the receipt of the previous months.
- Dedicated highly professional and very friendly and client-oriented sales representatives able to propose suitable solutions, offer new services and suggest changes for efficient use of services with stress on minimizing total costs;
- Companies flexibility to make continuous attempts to increase the service quality, expand the list of services offered as well as to further reduce the costs for the services;
