IC2021/WSM/035 NATIONAL CONSULTANT TO CONDUCT A SCOPING EXERCISE FOR ACCREDITATION OF STANDARDS FOR CIVIL SOCIETY ORGANISATIONS WORKING IN THE AREAS OF GBV AND DV/IPV.

A. PROJECT TITLE

A consultant to conduct a scoping exercise for accreditation of standards for CSOs working on the areas of gender- based violence and domestic violence/ intimate partner violence (DV/IPV).

B. PROJECT DESCRIPTION

Civil society actors are recognised as the vanguards for driving change to advance the sustainable development goals (SDGs) agenda. In Samoa, civil society actors continue to supplement government policy development and program implementation initiatives to promote and protect the rights of the most vulnerable populations from violence and harmful practices. Civil society structures are increasingly becoming the more popular and trusted entities for providing social, economic and health response services and refuge for vulnerable and marginalised individuals and groups.

The Spotlight Initiative (SI) is a global partnership between the European Union (EU) and the United Nations (UN) to eliminate all forms of violence against women and girls (VAWG), including harmful practices by 2030. Premised on the key principles of the SDGs, leaving no one behind (LNOB) and reaching the furthest behind first, the SI in Samoa addresses domestic Violence and intimate Partner Violence (DV/IPV).

The SI comprehensive delivery modality support to EVAWG is through an integrated six (6) pillar approach that is: (1) Laws & Policies (2) Institutions (3) Prevention (4) Services (5) Data (6) Women's & Civil Society Movement Building. The SI builds on existing Government commitments to ending domestic and intimate partner violence and cultural institutions in Samoa that support ending violence against women and girls. The programme will contextualize international best practices in preventing and responding to violence and learn from emerging practice on what works in-country.

Under pillar 6, the SI through UNDP in collaboration with other UN agencies works to support and strengthen civil society functional capacities, expertise, and knowledge by setting quality standards to better address DV/IPV and VAWG. There are over 10 civil society groups supported under the SI, a few of these organisations based on their specific mandates are considered essential services and continue to assist government ministries to implement prevention and response initiatives to address VAWG and DV/IPV. It is intended support under this pillar will facilitate the introduction of a quality assurance standard setting roadmap to contribute to a long-term broader framework for the development of social services standards

and sector wide protocols. This process will lay the foundation for empowering civil society services that are geared towards EVAWG.

UNDP in partnership with SUNGO seeks through this request for proposal, the services of consultant to conduct a scoping exercise to support the development of a guideline for accreditation standards for CSOs working in the areas of gender- based violence and intimate partner violence.

C. SCOPE OF WORK

The services provided by the consultant is to conduct a scoping exercise by reviewing relevant documents and facilitating a strategic dialogue amongst the key CSO counterparts and government ministries on (1) the purpose of having a standard setting guideline (2) the process for developing common standards or monitoring safeguards that would improve quality standards for CSOs working on DV/IPV. (3) provide future recommendations for options on completing the accreditation process and for the development of a quality standard guideline.

The scope of services is expected to help the key stakeholders navigate and consider a 'fit for purpose' CSO accreditation and standard setting process that is beneficial for suppliers of and users of the service. In-line with national and international best practice, relevant legislations, policies, survivor centred experience and standards.

The consultant is expected to carry out a scoping exercise involving a series of strategic dialogue with key partners and to provide recommendations for the accreditation of standards for civil society organisations working on DV/IPV. Ensure the guidelines incorporates principles, implementation and monitoring safeguards and standards in line with relevant international human rights standards. It is expected for the duration of the assignment, the consultant will be supported by SUNGO as the main counterpart and key government ministries who will form a 'CSO accreditation of standards taskforce' specifically for this assignment.
