The Local Socio-Economic Recovery in Ivano-Frankivsk region Project

Background Information

As of January 1, 2021, the United Nations Development Programme (UNDP) in Ukraine and the UK's Foreign, Commonwealth and Development Office (FCDO) have partnered in a project to bolster the resilience of communities in Ivano-Frankivsk Oblast, helping them to face multi-factor crises and enhance trust between the citizens and government institutions. The Project's implementation phase is expected to be completed on December 31, 2021.

The Local Socio-Economic Recovery in Ivano-Frankivsk region Project focuses on several ambitious but feasible objectives to ensure that no one is left behind during and after the post-crisis recovery. The project aims to build community resilience and trust in government by improving access to quality public services for the most vulnerable groups, particularly the elderly, children, the disabled, and women.

Specifically, the Project will contribute to achieving the following strategic objectives: (a) to build the resilience of communities in Ivano-Frankivsk oblast in the face of multi-factor crises and (b) to improve the level of trust in local, regional and national authorities and social cohesion among the citizens of Ukraine. The results that align with these overarching ambitions will be attained through a set of interventions targeting vulnerable populations, local communities and authorities, focusing on enhancing the access of women, men, girls and boys to quality public services and public service delivery.

It is envisaged that effective and inclusive public service delivery that meets community needs will make communities more resilient to the crisis and improve public perceptions towards the authorities. The positive changes such as improved access to administrative and educational services for the population of Ivano-Frankivsk oblast will result from the project implementation.
