Annex 1**Description of Requirements**

Context of the Requirement	<p>There is an opportunity to ensure that Timor-Leste equally benefit from innovations in DFS to respond to the current crisis and create market-driven solutions that accelerate economic recovery and resilience. UNCDF has a decade of experience providing technical assistance and capital to Least Developed Countries, including recovery from crisis. UNCDF uses its vast technical knowledge and convening power to bring together the public and private sectors to create local, sustainable solutions that leverage digital technology.</p> <p>In response to the current emergency, the action will contribute to the deployment of digital finance solutions at the scale and speed that are necessary to accelerate economic recovery amidst COVID-19 to make economies and societies more resilient to external shocks.</p> <p>Governments play a critical role in the early response to emergencies and creating an enabling environment for economic recovery. Private sector players, particularly payment service providers, play an equally vital role in ensuring people have access to formal payment systems, mitigating immediate shocks and creating opportunities for increased resilience. In this context, UNCDF is working with SECoop to support Credit Unions (CUs) to deploy a digital solution to provide access to financial services to CUs' members using a digital platform - a mobile e-wallet based system - in urban and remote, rural areas. Thus, to increase the uptake of financial services in Timor-Leste.</p> <p>The pilot project involves the set-up of the Mosan services platform across eight different locations in the country, targeting the biggest CUs. The pilot is expected to test this new channel's operational feasibility and commercial viability and increase the active customer base of CUs, linking approximately 17,000 members over 12 months.</p> <p>UNCDF will engage a qualified consultant (national or international) to provide strategic guidance and technical support to the project. Detailed assessments and the project validation plan will be made available to the consultant in due course.</p>
Implementing Partner of UNDP	The Secretary of State for Cooperatives (SECoop) and Telemor Fintech

	<p>and loan repayments) if provided with increased opportunities to transact digitally at affordable costs.</p> <p>The project, while offering basic financial services through a more convenient digital platform must be viewed in the context of the stage of the nascent market development in Timor-Leste.</p> <p>In this regard, UNCDF is seeking to engage a qualified consultant (national or international) to provide strategic guidance and technical support to the project. Detailed assessments and the project validation plan will be made available to the consultant in due course.</p> <p>The consultant will work with SECoop/CUs to develop a functional Mosan services platform and to develop consumer empowerment strategies to strengthen the financial competencies of CUs' members; to develop a complete framework of learning outcomes and identifying the method and means of introduction. In addition and from time to time, UNCDF might seek the consultant's support in scoping for new projects, which are similar by nature or are a natural extension of this SECoop project.</p> <p>During the implementation of the project, the consultant will be a member of the Project Management Team (PMT).</p>
