Description of Requirements

Context of the Requirement	<p><u>ORGANIZATIONAL CONTEXT</u></p> <p>UNDP operates in more than 170 countries and territories around the world. UNDP offers global perspective and local insight to help empower lives and build resilient nations that can withstand crisis, and that drive and sustain growth that improves the quality of life for everyone.</p> <p>In support of its development mandate, UNDP Botswana has partnered with the Government of Botswana (GoB) and private sector to implement the Supplier Development Programme (SDP). The project creates demand-based, market-driven opportunities for SMEs to increase their competitiveness through the innovative Suppliers Development Methodology (SDM) while connecting essential small-scale producers/suppliers to larger markets locally as well as abroad. Additionally, it strengthens the entrepreneurial ecosystem in country to encourage innovation and create employment.</p> <p>As a tool, the SDP has a targeted approach to engage large scale companies purchasing (or willing to purchase) goods and services from SMEs. The SDP focuses on integrating suppliers into a strategic relationship that allows them to improve their productivity, competitiveness and quality of products. The SMEs go through a rigorous six stage improvement process over a period of 10 months with close involvement of the lead/anchor company. The improvements brought about in these SMEs enables them to produce/manufacture more goods in better quality, less time and low costs; enhance their capacity to explore and enter new markets including export markets. This important linkage between large sourcing companies and their small suppliers remains central to the assistance, helping the SME's to expand and generate employment opportunities. The project currently focuses on eight (8) priority sectors of; Mining, Agri Business / Agro Processing, Leather, Projects (Infrastructure), Textiles, Health, Other Manufacturing and Digital Services, to develop the associated value chains. With recent financial support from the UNDP- Russia Trust Fund, the SDP model will expand its support to women and youth-owned businesses, particularly in the digital, health and agri-business spaces.</p>
