SECTION 5. TERMS OF REFERENCE

Terms of Reference for Provision of Case Management Services for COVID19 Patients of the UN Personnel and Eligible Dependents in Myanmar

1. Background

A novel coronavirus namely SARS-CoV-2 was identified, and human-to-human transmission has been confirmed since December 2019. World Health Organization (WHO) characterized COVID-19 outbreak as a pandemic on 11 March 2020. Globally, as of 3rd August 2021, there have been 198,778,175 confirmed cases of COVID-19, including 4,235,559 deaths, reported to WHO.

In Myanmar, Ministry of Health & Sports carried out COVID-19 preparedness and control activities through holistic approach mobilizing all sectors since early January 2020. During the 1st and 2nd wave of the pandemic during 2020, Myanmar well demonstrated the COVID-19 response and control activities and WCO was effectively leading the coordination among the MoHS and partners and donors in many fronts. It is clearly evident that with effective public health & social measures along with surveillance, testing and case management activities, and vaccination, declined of cases are observed in many countries.

However, starting from the 1st Feb since the military took over, health care system in Myanmar has been significantly impacted from highest levels in the MoHS all the way to frontline community volunteers within the public sector, including public health and medical services with significant disruption in all COVID-19 response pillars and other essential health services.

Moreover, Myanmar is hard hit with the 3rd wave of COVID 19 since 21st June 2021. The current political unrest had deteriorated Myanmar's health sector to manage the overwhelming of COVID 19 cases country wide. Many challenges have been encountered during the third wave of COVID-19 crisis in Myanmar. Limitation in the functionality of medical services in public sector and placement of curfew order are posing extreme challenges access to quality health care during health emergencies.

There are estimated 4,000 people of UN Staff working in Myanmar and their direct dependents. Many actions have been taken to provide health care to the UN staff and families such as the intense work of the colleagues of the UN Clinic; the establishment of the Call Center, with 35 volunteer medical doctors from different UN Agencies, working 24/7 to attend the demands of our staff and families; and the organized medical evacuation when necessary. Most of the staff and relatives are being treated for COVID-19 in home care facilities and with the support of telemedicine and the UN Clinic MDs. Despite all the efforts so far, there is still a gap to improve the assistance to the patients when there is requirement for hospital care and to avoid unnecessary medical evacuation.
