## **ANNEX 1: SCHEDULE OF REQUIREMENTS**

### **SPECIFICATION for the procurement of IT office equipment and air conditioning systems for Ukrainian Mine Action Centers at the national and regional levels**

#### **1. Description of the project**

The conflict in Eastern Ukraine has had widespread impacts upon the human security of civilian population. According to the data collected by OHCHR, 1,153 civilians were involved in accidents with EO in the period April 2014 to December 2020; casualties comprised 344 dead and 809 injured. Ukraine is one of the most contaminated countries in the world and became the most affected country by anti-vehicle mine accidents. The presence or suspicion of landmines, booby-traps, anti-vehicle mines, cluster munitions, or any number of other explosive remnants of war (ERWs) is adversely impacting on civilians' lives, restricting agriculture, inhibiting basic sustenance activities and disrupting essential infrastructure and services in many parts of Eastern Ukraine. The situation of IDPs continues to be a major humanitarian concern and it is estimated that over 1.4 million people have been displaced since 2014, women and children representing 63% of them.

The Government of Ukraine is undertaking a reform of its mine action response in line with the International Mine Action Standards that include gender dimensions and the National Action Plan to implement the UN Security Council Resolution 1325 "Women, Peace and Security". A new legislation was passed in September 2020 and signed by President of Ukraine in December 2020, which calls for envisages the set-up of respective mine action authorities.

UNDP Project "Capacity Development Support for Integrated Mine Action in Eastern Ukraine" is aimed at supporting the Government of Ukraine in establishing a comprehensive, coordinated and gender-responsive mine action. The project provides strategic capacity development support for mine action to enhance integrated planning, coordination, and operational efficiencies amongst the different mine action stakeholders presently active at national level and regionally in eastern Ukraine (Donetsk and Luhansk oblasts).

One of the project interventions is focused on establishing effective state institutions – National Mine Action Authority (NMAA) and Mine Action Centers (MACs) to ensure coordination of measures for the management and regulation of all mine action activities in eastern Ukraine.

#### **2. Scope of work**

- a. Provision of the equipment for MACs in accordance with the technical details specified in the tables below for each lot.
- b. Each lot defines the list of office equipment and appliances for provision of the corresponding MACs of Ministry of Defence of Ukraine (MOD) and State Emergency Service of Ukraine (SES). Delivery of goods shall be done to the addresses specified in Section 4.
