This RFP is conducted in accordance with the UNDP Programme and Operations Policies and Procedures (POPP) on Contracts and Procurement which can be accessed at <a href="https://popp.undp.org/SitePages/POPPBSUnit.aspx?TermID=254a9f96-b883-476a-8ef8-e81f93a2b38d">https://popp.undp.org/SitePages/POPPBSUnit.aspx?TermID=254a9f96-b883-476a-8ef8-e81f93a2b38d</a>
	1.2 Any Proposal submitted will be regarded as an offer by the Bidder and does not constitute or imply the acceptance of the Proposal by UNDP. UNDP is under no obligation to award a contract to any Bidder as a result of this RFP.
	1.3 As part of the bid, it is desired that the Bidder registers at the United Nations Global Marketplace (UNGM) website ( <a href="http://www.ungm.org">www.ungm.org</a> ). UNDP's Anti-Fraud Policy can be found at <a href="http://www.undp.org/content/undp/en/home/operations/accountability/audit/office_of_audit_andinvestigation.html#anti">http://www.undp.org/content/undp/en/home/operations/accountability/audit/office_of_audit_andinvestigation.html#anti</a>

### INTERACTIVE DATA VISUALIZATION DESIGN SERVICES

#### I. BACKGROUND

The mandate of the Human Development Report Office (HDRO) of the United Nations Development Programme (UNDP) is to produce UNDP's flagship Human Development Report (HDR) and advance human development. HDRO works with others to achieve this goal through writing and research, data analysis and presentation, support to national and regional reports, and outreach and advocacy work. In addition to the HDR, HDRO publishes other publications, including the Human Development Perspectives series, the Multidimensional Poverty Index Report, and various background and technical papers; HDRO computes the Human Development Index (HDI) and other human development indices and maintains a database of human development data for over 190 countries.

The HDRO public website ([hdr.undp.org](http://hdr.undp.org)) is a high-traffic platform for human development research, data and outreach. Key audiences include governments and policymakers, academia, researchers, civil society, development practitioners from the UN system and beyond, and the general public. The new version of the HDRO website on Drupal 9 will be introduced in February 2022. This project will provide interactive visualization content for the new website.

#### II. PROJECT INTRODUCTION

HDRO works to source and generate consistent, credible research and data about human development around the world and communicate the findings through compelling data visualization, to reach and engage key target audiences, from the broad public to experts.

To this end, HDRO seeks to recruit a data visualization expert with a proven track record to create inspiring, engaging, and impactful digital data visualizations for the HDRO website to present HDRO's data and statistical products. The project includes an interactive presentation of the human development country profiles (<http://hdr.undp.org/en/countries>) and a set of interactive data visualizations for HDRO's feature statistical products, including the Human Development Index (HDI), and others as detailed in Section III of this TOR. We seek forward-thinking creatives with ambitious attention to detail, a high design aesthetic, and awareness of the latest trends and solutions.

#### III. REQUIREMENTS AND DELIVERABLES

##### **PART 1: Human Development Country Profiles platform**

- Design and develop an intuitive and compelling interactive presentation of human development country profiles (the current version: <http://hdr.undp.org/en/countries>).
- The vendor is expected to provide a creative solution that will include the following content:
  - A landing page user interface and filters to select countries,
  - Country profile views/dashboards with:

- Data visualizations of HDRO's composite indices including the HDI, MPI, IHDI, GDI, GII, and PHDI, with user friendly filters for selections and comparisons.
  - Country explainer text (provided by HDRO) with auto-placed values.
  - Downloads of supporting materials and options to export views and data into CSV, JPEG, or share on social media.
- The vendor is expected to conduct QA (with HDRO's support), maintenance and fine-tuning of the solution and design.
  - Follow industry best practices for managing and maintaining visualizations, including creating an efficient data updating workflow.
  - The design solution must follow the new HDRO website design system, including colors and typography. HDRO will provide a detailed design system guide at the start of the project.

## **PART 2: Data visualizations for the composite index pages**

- Design and develop a set of six engaging data visualizations (consistent in style and technology with the country-profiles solution) for HDRO's composite indices (HDI, MPI, GDI, GII, IHDI, PHDI). HDRO will provide the actual data in the format needed. For a general idea, the data will come from tables in HDRO's download center: <http://hdr.undp.org/en/content/download-data>.
- All six visualizations must be consistent in design, style, and complexity.
- For example, the HDI solution should include a visualization of the latest HDI global, regional, and country-level data, time series, filters to select and compare multiple countries, and options to export the views and data.
- As with the country profiles, the vendor is expected to follow industry best practices for managing and maintaining visualizations, including creating an efficient data updating workflow.
