BACKGROUND

At UN City in Copenhagen, campus 1, there are some 1,700 employees working and sharing the 45,000 m² of office and meeting space.

Campus 1 has been designed to use at least 55% less energy than expected from a similar-sized office building. The UN City is thus one of Denmark's most energy efficient buildings with an annual energy consumption of less than 50 kWh per m² (Danish Energy Class 1).

UN City (Campus 1) is today LEED Platinum certified, which the highest rating possible.

LEED (Leadership in Energy and Environmental Design) is a voluntary, consensus-based, market-driven program that provides third-party verification of green buildings.

More than 1,400 solar panels line the roof of UN City to support the goal of generating renewable energy onsite. With an estimated total production of 297,000 kWh/year, the panels significantly reduce the electricity needed from the grid.

Common services have the responsibility for part of the maintenance. That incorporated maintaining change when needed machinery and equipment, light fittings, cabling to desks, screens, and IT equipment. Common Services also manage the communication with owners and other stakeholders, to assure necessary involvement and approvals are met. All technical installations are controlled through the CTS-system.

SCOPE OF WORK

UN City Common Services wishes to have new technical drawings made in connection with reducing Uninterruptible Power Supply (UPS) capacity from current 4 to 1. UN City has two UPS in the basement at two different places. There are two others on the 2nd floor. We want to consolidate all the UPS on 2nd floor on the same as place as currently used. We need the technical drawings and specifications for the electrical work needed to make this change. The changes include expanding the current ICT infrastructure with 2x24 OM4 fiber with alternative path.
