1.0 Introduction

This section covers the bid submission process including how to search and view events in the system, how to participate in an event and prepare your bid response, and how to make the final bid submission and confirm that the bid has been submitted.

- **1.1 Overview of the guide**
- **1.2 What is eTendering?**
1.1 How to use the Guide

This guide is organized in several sections that correspond to different functions of the eTendering system such as registration, submitting bids, maintaining profile, etc. Each section has its specific background colour.

The Table of Contents (TOC) provides an overview of the document content. It contains hyperlinks to the exact page of the content in the document so the reader can navigate directly to the relevant section. Each section starts with a brief overview of the content of that section with hyperlinks.

Throughout the document, there are three types of hyperlink:

- Hyperlink buttons that will take reader to the main TOC, found at the top right corner of each main chapter page, such as the one on this page.

- Hyperlinks that take readers to the beginning of the current section, usually found at the bottom left corner like in this page.

- Hyperlinked words that take reader directly to a location of the document related to the text. For example, by clicking on the hyperlinked TOC here, the reader can go directly to the TOC page of this document.
1.2 What is eTendering?

The eTendering module is designed to facilitate the UNDP Tender process through online interaction. The system aims to enhance the integrity and transparency of the tender process and also enables the streamlining of the procurement process: Bidders can use eTendering to submit their bids, view solicitation documents and receive automatic notifications from the system whenever an event has been modified.

The eTendering system addresses UNDP’s fundamental procurement values, such as fairness, integrity, transparency and accountability.

Some of the main benefits of the eTendering system are:

- **No late submissions are accepted**: The system will automatically not accept any bid after the deadline.
- **Electronic sealed bids**: The eTendering system encrypts the bids submitted in the system and does not allow anyone to view any information provided before the bidding deadline.
- **Electronic stamping of the bids**: The system stamps all information submitted by bidders and prevents anyone from altering, deleting, or adding anything to the bid after the deadline for submission.
- **Streamlines the bidding process**: Bidders can register in the system, retrieve all information and solicitation documents, and receive automatic notifications on certain stages of the procurement process. Bidders may also submit their bid online, edit it directly in the system, and receive automatic notifications once the evaluation is finalized and the contract is awarded.
- **Provides an audit trail**: As the eTendering system records all activity in the system, it keeps an audit trail for increased accountability and transparency.

The bid factors may vary by the type of response that is required. Some will require a “yes/no” response, others may require typed answers, or numerical input. Please read each question carefully before submitting your reply.

Bid Required: When a question is marked by a red star, it means that answering the question is mandatory to make a qualified bid.

Ideal Response Required: When a question is marked by a folder and red star you must answer the question with an ideal response. For example in Question 1 on the left, the ideal response is yes. You can only answer yes for this question.
2.2 Prepare Bid Response – Insert quantities and unit prices

Insert your bid price in the required fields.

Open the PDF file received via email and scroll to the end “Bid Attachments” section of the document. You will find a list with the names of all the files that you have uploaded to your bid. Always check this list to ensure that you have uploaded all the supporting documentation as required. As the system does not verify whether all required documentation has been submitted, it is the bidder’s responsibility to ensure that all required supporting documents have been successfully uploaded.

**Bid Attachments**:

- File Name: FAQ_for_bidders_Release_No_4_June_2016.pdf, File Description: Main Bid Document
- File Name: Managing_saved_and_posted_bids.pdf, File Description: Main Bid Document

Bidders have the option to prepare their bid responses offline by downloading the entire event package to their computer in .XML file format.

The .XML file event package will contain all the required bid factors and line items that must be completed by the bidder before submitting their bid online.

To do this, the Bidder must download the .XML file, save it as an excel file to their computer, complete required fields, and then upload their bid response to eTendering.

Please note that if you choose this optional method of submitting your bid, you must also ensure that you have also uploaded all the necessary supporting documents directly to the system before submitting your bid.

To begin preparing your bid response offline, you must first download the .XML file to your computer. To locate the .XML file, go to: “Event Details” → “Bidding Shortcuts” → and click on “View Bidding Documents”.

If a Tender is amended, a new version of that event will be created in the system. In most cases, bids posted to the older version will remain in “posted” status, but it is important that the Bidder checks that their bid response corresponds with the requirements of the newest event version.

**IMPORTANT**

If the amendments to the event involve any changes to mandatory bid factors or line items, the status of a previously posted bid will be changed to cancelled and you will have to submit a new bid response.
3.5.1 Manage Bids – When a Bid is cancelled after event is amended

When amendments to the event involve any changes to mandatory bid factors or line items, the status of a previously posted bid will be changed to “cancelled” and you will have to submit a new bid response.
