HOW TO USE THE VACCINE DISTRIBUTION REGISTER FOR AN IMMUNISATION SESSION

1. Each page of this register should be used for TWO Immunisation session day. If there are more than 28 sessions scheduled on 1 day, continue on the next Table.
2. Add the name of the Sub-Centres to whom the vaccines are issued and the session site.
3. Always start transactions for next immunisation session in a new Table of the register.

Issue of Un-Opened Vaccine Vials:

- The quantity for all the un-opened vaccine vials that are issued to the session site should be recorded in “**doses**”.
- This should be done for each of the vaccines which are issued to the session site.

Return of Un-Opened Vaccine Vials:

- At the end of the session day, all the returned un-opened vaccine vials should be recorded in “**doses**”.
- It should be recorded next to the quantity of vaccine that were issued in the morning.

Example: On a routine immunisation day, PHC K R Puram GH catered to 2 session sites. The quantity of un-opened doses distributed and received is recorded in the register as mentioned below:

Vaccine Distribution Register For Immunisation Session

Name of the CHC/PHC/PPC: K R Puram GH								Name of the person distributing the vaccines: Shyam Prasad										Name of the person receiving back the vaccines: Shyam Prasad										Type of the session (RI/ SIW/Campaign/Others): RI						Date: 4/3/2014		
		Issue and Return of Un-opened Vaccine Vials (VVM Status Usable)																										Syringes						Red and Black Plastic Bags (Yes/No)

1	1	1	1	1	1	1	1	1	1	1	1	1	1	1	1

Recording ' Net Utilisation' of Vaccines
-At the end of each session day, the total for each column, issued and returned, should be calculated and recorded in the last row called “Total.”
-Once the total is calculated, net utilisation for that day should be calculated by subtracting return from issue.
-Net-Utilisation should not be calculated for the Open Vials which are issued and returned.
