UNDP will conduct the evaluation solely on the basis of the submitted Technical and Financial Proposals.</p> <p>27.2 Evaluation of proposals is made of the following steps:</p> <ol style="list-style-type: none"> Preliminary Examination Minimum Eligibility and Qualification (if pre-qualification is not done) Evaluation of Technical Proposals Evaluation of Financial Proposals
28. Preliminary Examination	<p>28.1 UNDP shall examine the Proposals to determine whether they are complete with respect to minimum documentary requirements, whether the documents have been properly signed, and whether the Proposals are generally in order, among other indicators that may be used at this stage. UNDP reserves the right to reject any Proposal at this stage.</p>
29. Evaluation of Eligibility and Qualification	<p>29.1 Eligibility and Qualification of the Bidder will be evaluated against the Minimum Eligibility/Qualification requirements specified in the Section 4 (Evaluation Criteria).</p> <p>29.2 In general terms, vendors that meet the following criteria may be considered qualified:</p> <ol style="list-style-type: none"> They are not included in the UN Security Council 1267/1989 Committee's list of terrorists and terrorist financiers, and in UNDP's ineligible vendors' list; They have a good financial standing and have access to adequate financial resources to perform the contract and all existing commercial commitments, They have the necessary similar experience, technical expertise, production capacity where applicable, quality certifications, quality assurance procedures and other resources applicable to the provision of the services required; They are able to comply fully with UNDP General Terms and Conditions of Contract; They do not have a consistent history of court/arbitral award decisions against the Bidder; and They have a record of timely and satisfactory performance with their clients.
30. Evaluation of Technical and Financial Proposals	<p>30.1 The evaluation team shall review and evaluate the Technical Proposals on the basis of their responsiveness to the Terms of Reference and other RFP documents, applying the evaluation criteria, sub-criteria, and point system specified in the Section 4 (Evaluation Criteria). A Proposal shall be rendered non-responsive at the technical evaluation stage if it fails to achieve the minimum technical score indicated in the BDS. When necessary and if stated in the BDS, UNDP may invite technically responsive bidders for a presentation related to their technical proposals. The conditions for the presentation shall be provided in the bid document where required.</p> <p>30.2 In the second stage, only the Financial Proposals of those Bidders who achieve the minimum technical score will be opened for evaluation. The Financial</p>

	<p>Proposals corresponding to Technical Proposals that were rendered non-responsive shall remain unopened, and, in the case of manual submission, be returned to the Bidder unopened. For emailed Proposals and e-tendering submissions, UNDP will not request for the password of the Financial Proposals of bidders whose Technical Proposal were found not responsive.</p> <p>30.3 The evaluation method that applies for this RFP shall be as indicated in the BDS, which may be either of two (2) possible methods, as follows: (a) the lowest priced method which selects the lowest evaluated financial proposal of the technically responsive Bidders; or (b) the combined scoring method which will be based on a combination of the technical and financial score.</p> <p>30.4 When the BDS specifies a combined scoring method, the formula for the rating of the Proposals will be as follows:</p> <div style="border: 1px solid black; padding: 10px; margin-top: 10px;"> <p><u>Rating the Technical Proposal (TP):</u></p> <p>TP Rating = (Total Score Obtained by the Offer / Max. Obtainable Score for TP) x 100</p> <p><u>Rating the Financial Proposal (FP):</u></p> <p>FP Rating = (Lowest Priced Offer / Price of the Offer Being Reviewed) x 100</p> <p><u>Total Combined Score:</u></p> <p>Combined Score = (TP Rating) x (Weight of TP, e.g. 70%) + (FP Rating) x (Weight of FP, e.g., 30%)</p> </div>
31. Due Diligence	<p>31.1 UNDP reserves the right to undertake a due diligence exercise, also called post qualification, aimed at determining to its satisfaction, the validity of the information provided by the Bidder. 32. Clarification of Proposals	<p>32.1 To assist in the examination, evaluation and comparison of Proposals, UNDP may, at its discretion, ask any Bidder for a clarification of its Proposal.</p> <p>32.2 UNDP's request for clarification and the response shall be in writing and no change in the prices or substance of the Proposal shall be sought, offered, or permitted, except to provide clarification, and confirm the correction of any arithmetic errors discovered by UNDP in the evaluation of the Proposals, in accordance with RFP.</p> <p>32.3 Any unsolicited clarification submitted by a Bidder in respect to its Proposal, which is not a response to a request by UNDP, shall not be considered during the review and evaluation of the Proposals.</p>

33.Responsiveness of Proposal	<p>33.1 UNDP's determination of a Proposal's responsiveness will be based on the contents of the Proposal itself. A substantially responsive Proposal is one that conforms to all the terms, conditions, TOR and other requirements of the RFP without material deviation, reservation, or omission.</p> <p>33.2 If a Proposal is not substantially responsive, it shall be rejected by UNDP and may not subsequently be made responsive by the Bidder by correction of the material deviation, reservation, or omission.</p>
34.Nonconformities, Repairable Errors and Omissions	<p>34.1 Provided that a Proposal is substantially responsive, UNDP may waive any non-conformities or omissions in the Proposal that, in the opinion of UNDP, do not constitute a material deviation.</p> <p>34.2 UNDP may request the Bidder to submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities or omissions in the Proposal related to documentation requirements. Such omission shall not be related to any aspect of the price of the Proposal. Failure of the Bidder to comply with the request may result in the rejection of its Proposal.</p> <p>34.3 For Financial Proposal that has been opened, UNDP shall check and correct arithmetical errors as follows:</p> <ul style="list-style-type: none"> a) if there is a discrepancy between the unit price and the line item total that is obtained by multiplying the unit price by the quantity, the unit price shall prevail and the line item total shall be corrected, unless in the opinion of UNDP there is an obvious misplacement of the decimal point in the unit price; in which case the line item total as quoted shall govern and the unit price shall be corrected; b) if there is an error in a total corresponding to the addition or subtraction of subtotals, the subtotals shall prevail and the total shall be corrected; and c) if there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetic error, in which case the amount in figures shall prevail. <p>34.4 If the Bidder does not accept the correction of errors made by UNDP, its Proposal shall be rejected.</p>
E. AWARD OF CONTRACT	
35.Right to Accept, Reject, Any or All Proposals	<p>35.1 UNDP reserves the right to accept or reject any Proposal, to render any or all of the Proposals as non-responsive, and to reject all Proposals at any time prior to award of contract, without incurring any liability, or obligation to inform the affected Bidder(s) of the grounds for UNDP's action. UNDP shall not be obliged to award the contract to the lowest priced offer.</p>
36.Award Criteria	<p>36.1 Prior to expiration of the proposal validity, UNDP shall award the contract to the qualified Bidder based on the award criteria indicated in the BDS.</p>
37.Debriefing	<p>37.1 In the event that a Bidder is unsuccessful, the Bidder may request a debriefing from UNDP. Payment will be effected by bank transfer in the currency of contract.
45. Vendor Protest	45.1 UNDP's vendor protest procedure provides an opportunity for appeal to those persons or firms not awarded a contract through a competitive procurement process. In the event that a Bidder believes that it was not treated fairly, the following link provides further details regarding UNDP vendor protest procedures: http://www.undp.org/content/undp/en/home/operations/procurement/business/protest-and-sanctions.html

Section 5. Terms of Reference

Consultancy Support for Improved Climate Change Mitigation and adaptation

a. Background Information and Rationale, Project Description

Papua New Guinea (PNG) has been one of the fastest growing economies globally this century with average growth rates above 6%². This rapid growth has been driven primarily by the expansion of foreign investment within the natural gas sector and high prices for PNG's central exports many of which are transported to rapidly growing Asian economies. This growth has built on a long history of natural resources being at the centre of the PNG economy with exports and employment dominated by mining, natural gas, natural forest logging and agriculture. While this rapid growth has delivered significant changes in PNG's main urban areas and those communities benefiting directly from foreign investment, the country still faces significant challenges in meeting the objectives of Vision 2050 and in providing development opportunities for all while also maintaining its natural environment.

Over 85% of the nation's 7.3m population are based in rural areas and rely primarily on subsistence agriculture for survival and have limited access to health centres, education or broader development opportunities. Falling commodity prices since 2012 have also left the country facing significant economic challenges despite ongoing growth.

PNG has a significant area of intact tropical forest covering 77.8% of the country's 46.9m ha of land. Together with the forest of West Papua (Island of New Guinea) they represent one of the largest areas of intact tropical forest in the world. These forests are critical to the livelihoods and economy of the country and a commercial logging industry has for a long period been a central part of the economy.

Enga province lies within the Highlands Region of Papua New Guinea covering an area of 11,704km² and with a significant altitudinal range from less than 200m where the Yuat River leaves the province in the northeast, to 3800m on the way to Mt. Hagen on the south. The population is mainly rural (97%) and the provincial capital of Wabag has a population of just over 5,000 people. The province's highly diverse terrain presents a varied range of environmental and climatic conditions however only approximately 3,200km² (or 27%) of the land is considered suitable for agriculture.

In November 2020, UNDP Country Office and European Union signed Contribution Agreement to implement the project "*Strengthening Integrated Sustainable Landscape Management in Enga Province Papua New Guinea*" for the period 2021- 2025. The project will assist in strengthening sustainable and inclusive economic development of the Enga Province of Papua New Guinea by three components:

- **Component 1: Improved climate change mitigation and adaptation.** This component will focus principally on delivering improvements in the status of climate change mitigation and adaption by strengthening its integration into the development planning framework, supporting the development and early implementation of climate compatible provincial and district development plans, including the development of effective financing mechanisms to support climate mitigation, adaptation and disaster risk management activities.
- **Component 2: Strengthened food and nutrition security.** This component will focus on strengthening food and nutritional security within Enga through engagement with both key commercial value chains and subsistence farmers to improve cultivation techniques and help integrate new crops and produce within production systems.
- **Component 3: Improved Biodiversity and land/forest ecosystems conservation, restoration and sustainable use.** This component focuses on enhanced action on conservation, restoration and sustainable use of high value areas within the landscape. These will be achieved

² World Bank Data. Available at <http://data.worldbank.org/indicator/NY.GDP.MKTP.CD?locations=PG>

through combining an enhanced mandate and capacity of environmental officers at the provincial level as part of CEPA's decentralization process, with strengthening and coordination of provincial environment, climate change and forest management committees and their work with economic development committees, and targeted action at the community level to establish Community Conservation Areas and undertake reforestation, rehabilitation and woodlot development activities.

Integrated sustainable land use and development planning within provincial and district development planning will provide a framework and supporting environment for effective climate compatible development including both mitigation and adaptation actions. This framework will be used as a base to help catalyse community action on sustainable projects and the development of community conservation areas as well as private sector investment in the development and production of high quality 'conservation commodities' that have improved international market access and prices and support the delivery of multiple objectives at the community level. This integrated approach is fully in line with a number of government and private sector initiatives with the current project acting as a catalyst to bring these elements together as well as helping to bridge the investment gap present in fully operationalizing these integrated approaches.

Through these actions the project will provide significant support to achieving both PNG's Medium-Term Development Goals, including targets for increasing agricultural productivity, increasing areas under conservation and reducing levels of forest loss. It will also support action under the SDGs in particular action on SDG15 Life on Land, SDG 13, Climate Action and Goal 2, Zero Hunger.

The current assignment is intended to closely work with the Climate Change and Development Authority (CCDA) a lead government agency and Enga Provincial Government to undertake to perform set of activities under the climate change (component 1 of the project).

b. Specific Objectives

Under the overall supervision of the UNDP International Technical Advisor and the technical guidance of the CCDA and in close coordination with Enga Provincial Administration, an NGO or a firm will be selected to be responsible for conducting set of activities for improved climate change mitigation and adaptation in the province and achieve following results:

- Climate change and Disaster Risk Reductions effectively integrated into development planning process as part of landscape approach to jurisdictional planning.
- Climate change mainstreamed into development and sustainable land use planning with Enga Province.

c. Scope

The NGO/Firm selected will work closely with the project team and project experts as well as review the existing documents prepared by project experts to implement the activities within the climate change component of the project. The NGO/Firm will perform following tasks:

- **Activity 1.1. Climate change and Disaster Risk Reductions effectively integrated into development planning process as part of landscape approach to jurisdictional planning.**
 - **1.1.2. Tools to integrate climate change adaptation / DRM and climate change mitigation into development planning, PIP, DSIP application process developed.**

The project is conducting a feasibility study that will review and identify all development plans as well as provide recommendations for where climate change is integrated to the development planning. The NGO/Firm will work with the relevant stakeholders and committees to integrate DRR/CC in one provincial development plan and 3 District plans for endorsement by Provincial Executive Council. It is worth noting that the provincial government is currently developing the 2021-2030 Strategic Provincial Development Plan so the NGO/Firm selected will contribute to that. It should be noted that feasibility study that is ongoing will only provide a baseline information of existing plans and policies

and possible recommendations for improvement while the NGO/Firm selected for this assignment is expected to actually implement the recommendations and integrate climate change adaptation, mitigation and DRM into the development plans.

- **1.1.3. Climate compatible development plan for the province including key investment projects, climate change adaptation and mitigation strategy developed.**

Based on the feasibility study, the NGO/Firm will work with the project team to develop five key policies, regulations and plans on sustainable land use management at the national, provincial and district levels. These policies, regulations and plans should facilitate the integration of climate change in development plans (activity 1.1.3 above) as well lay the ground for implementation of the plans post-endorsement.

- **1.1.4. Financing Strategy for Development plans created.**
