1.1 How to use the Guide

This guide is organized in several sections that correspond to different functions of the eTendering system such as registration, submitting bids, maintaining profile, etc. Each section has its specific background colour.

The Table of Contents (TOC) provides an overview of the document content. It contains hyperlinks to the exact page of the content in the document so the reader can navigate directly to the relevant section. Each section starts with a brief overview of the content of that section with hyperlinks.

Throughout the document, there are three types of hyperlink:

- Hyperlink buttons that will take reader to the main TOC, found at the top right corner of each main chapter page, such as the one on this page.
- Hyperlinks that take readers to the beginning of the current section, usually found at the bottom left corner like in this page.
- Hyperlinked words that take reader directly to a location of the document related to the text. For example, by clicking on the [hyperlinked TOC here](#), the reader can go directly to the TOC page of this document.

1.2 What is eTendering?

The eTendering module is designed to facilitate the UNDP Tender process through online interaction. The system aims to enhance the integrity and transparency of the tender process and also enables the streamlining of the procurement process: Bidders can use eTendering to submit their bids, view solicitation documents and receive automatic notifications from the system whenever an event has been modified.

The eTendering system addresses UNDP's fundamental procurement values, such as **fairness, integrity, transparency and accountability**.

Some of the main benefits of the eTendering system are:

- ✓ **No late submissions are accepted:** The system will automatically not accept any bid after the deadline.
- ✓ **Electronic sealed bids:** The eTendering system encrypts the bids submitted in the system and does not allow anyone to view any information provided before the bidding deadline.
- ✓ **Electronic stamping of the bids:** The system stamps all information submitted by bidders and prevents anyone from altering, deleting, or adding anything to the bid after the deadline for submission.
- ✓ **Streamlines the bidding process:** Bidders can register in the system, retrieve all information and solicitation documents, and receive automatic notifications on certain stages of the procurement process. Bidders may also submit their bid online, edit it directly in the system, and receive automatic notifications once the evaluation is finalized and the contract is awarded.
- ✓ **Provides an audit trail:** As the eTendering system records all activity in the system, it keeps an audit trail for increased accountability and transparency.

2.2 Prepare Bid Response – Save for later

A system notification will alert the user that their bid is about to be saved. Click on “OK” to confirm that you want to save the bid for later.

The screenshot displays the Atlas Finance eTendering interface. At the top, a blue banner reads "Welcome eTendering Bidder User Guide to Atlas Community!". Below this, a "Menu" section on the left includes links like "Manage Events and Place Bids", "View Events and Place Bids", "My Event Activity", "Maintain My User Contact", and "My Bidder Profile". The main content area shows a "Message" box with the title "Save Warning (20001,104)". The message text, in multiple languages, informs the user that their bid is being saved and that they must click "Submit Bid" later. An "IMPORTANT" alert box in the top right corner emphasizes this requirement. At the bottom of the message box, there is a table with columns for "DOZ", "20 0000", "20 0000", "100 000000", and "2,000 0000 USD". A red box highlights the "OK" button at the bottom right of the message box.

3.3 Manage Bids – Submit an Alternate Bid

In some cases, UNDP accepts alternate bids. This means that the bidder can submit more than one bid in the system, in which case one of the bids is the primary bid and the other(s), alternate bids.

If you wish to submit more than one bid to the same event, it is possible to copy from the primary bid so you do not have to populate your responses from scratch.

To do this, go to the “**Event Details**” page click on “**View, Edit or Copy from Saved Bids**” and check if Multiple Bids are allowed as shown below. If multiple bids are allowed, the “**Copy**” link will be active.

Click on “**Copy**” and begin to prepare your alternate bid response.
