1. In Prequalification for Civil Works instruction it is not clear whether the Prequalification Documents are required back in PDF or Word.Doc version. Please kindly submit the documents dully filled and signed. Kindly submit them in both formats PDF and Word.

2. In Prequalification instruction submission of application are accepted through e-tendering and through email, while the e-tendering there is no option for uploading document. Please kindly refer to Section C - Submission Of Applications. For eTendering, please kindly follow the instruction for registration.

3. The Annex - 4 which is related to General Experience Record and Current Contract Commitments/Ongoing Projects is missing from the documents list. Could you please forward it to us.

Please kindly refer to the Attachment 5 of the documents under eTendering case.

4. Can international firm (registered as construction company in other country) apply and is eligible? Yes, if It is compliance with all the requirements mentioned in the Pre-Qualification Document. Only contractors who have valid business registration certificates/license for construction or civil works. Also please consider that any mobilization time would be short as the different cases request to be implemented as soon as possible.

5. Please clarify the equipment/machinery sited outside Afghanistan will be considered by UNDP Afghanistan or UNDP Afghanistan will accept only those machinery whose present physical location is Afghanistan?

The machinery must be available in Afghanistan as this is the site where the works will be required. Also please consider that any mobilization time would be short as the different cases request to be implemented as soon as possible. Applicants must demonstrate availability the equipment including proof of ownership or lease

6. The Approximate number of the upcoming projects budgets for the next five-year have been determined? if yes, Could you please provide us some information.

This number has not been determined yet.

7. As per the checklist, the annex 4 is for Company Experience or past performance. As there was no format for Experience, the Offeror will prepare their own format or UNDP may send the format for Annex 4?
Please kindly refer to the Attachment 5 of the documents under eTendering case.

8. We kindly request you to know if we can make changes in the Annex 6 Staff list to put more staff we have now in Company to show our Qualification.

The bidders can detail more personnel in the form, however please kindly consider that the required personnel will be evaluated according to the established parameters. No modifications of the formats are allowed, if you add more personnel you can increase the list however please clarify which key personnel will be considered for the evaluation.

Please kindly use the Annex 7-CV for each candidate and provide the required information for each case.

9. Quality Assurance Certification ISO 9000 and ISO 14001 & 14064 is mandatory? or optional? Also, can we select one region?

Please kindly detail if you have it or not and will be under consideration of the evaluation committee. For the region selected you have to provide the supporting documents for verification.

10. Do we need to submit different applications for different categories or levels?

No, you can submit one application but clearly mention to which category the applications should be considered and submit the required information. Please kindly identify properly each of the attachments submitted (Specially CVs: Kindly detail the name and position in the name of each file for easy reference)

11. As an interested vendor, do we need to apply to a specific level as there are four different levels with different ranges or UNDP will categorize contractors based on their capabilities and experience?

This is a prequalification process. The interested vendors are required to provide all the required information and supporting documents for the category that they are applying. Please kindly identify the category and the region. UNDP will evaluate the documents according to the established parameters.

12. Will contractors who qualify for level 1 the highest level, will be invited to all the projects in a specific region. As there may be very limited projects with high values.

Please kindly include in the documents the confirmation to be included in other categories.

13. Financial Capabilities The difference between level 1 and Level 2 in one contract is more than the Cumulative values, The one contract values is changed from USD 100,000.0 to USD 500,000.0 but the cumulative value is changed from USD 500,000.0 to USD 1,000,000. Please kindly clarify.

The requirement of at least one contract for an specific amount is related to determine the implementation capacity in each level.
