AMENDMENT NO. 2

Date: 14/03/2022

Subject: Amendment No:2 to Request for Quotation (RFQ) for the Procurement of Solar Panels and Hybrid Inverter within the scope of "Increasing Employability for Syrians and Turkish Host Community Members in the Renewable Energy Sector" titled project issued on 02 March 2022

Ref: UNDP-TUR-RFQ(KRE)-2022-21

Dear Madam/Sir,

Please find **ATTACHMENT-1 "Answers to Questions from Prospective Offerors"** within the context of subject RFQ issued on 02 March 2022 for Procurement of Solar Panels and Hybrid Inverter within the scope of "Increasing Employability for Syrians and Turkish Host Community Members in the Renewable Energy Sector" titled project.

You are kindly requested to prepare and submit your quotations in response to our subject RFQ with consideration of this amendment whereas all other clauses of the RFQ remaining valid.

Please be sure that your quotation is submitted via email on or before the submission deadline on **March 15th, 2022; 17:00 hrs. (GMT+3, Local Time-Turkey)** to the email address tr.procurement@undp.org.

ATTACHMENT-1 "Answers to Questions from Prospective Offerors"

Yours sincerely,

ATTACHMENT-1 ANSWERS TO QUESTIONS FROM PROSPECTIVE OFFERORS / // EK-1 TEKLİF VERECEKLERDEN GELEN SORULARA YANITLAR

Please be informed that that Turkish version of the question and answers are given for reference purpose only. In case of an inconsistency between Turkish and English versions, English version shall prevail. / Soru ve cevapların Türkçe versiyonlarının sadece referans amaçlı verildiğini lütfen unutmayınız. Türkçe ve İngilizce versiyonları arasında uyumsuzluk olması durumunda İngilizce versiyon esas alınacaktır.

Question 1: Regarding item 2: Hybrid Inverter, a 60kW inverter is requested in the RFQ document. Will an accumulator be used for binding the inverter? Would it be acceptable to offer a 50kW inverter an alternative product?

Soru 1: Madde 2: Hibrit İnverter ile ilgili olarak, RFQ belgesinde 60kW'lık bir invertör talep edilmektedir. İnvertörü bağlamak için bir akümülatör kullanılacak mıdır? 50kW'lık bir invertör alternatif bir ürün sunmak kabul edilebilir mi?

Answer 1: There is no other additional energy/power source to be used (such as batteries, accumulators, etc.) other than solar energy and grid electricity. The required item is clearly defined as one piece 60 kW inverter in the RFQ and other solutions shall not be accepted. In addition, please also be informed that alternative quotes are not permitted as clearly stipulated in the RFQ.

Cevap 1: Güneş enerjisi ve şebeke elektriği dışında kullanılacak başka bir ek enerji/güç kaynağı (pil, akü vb.) bulunmamaktadır. Talep edilen kalem RFQ'da açıkça tek parça 60 kW invertör olarak tanımlanmış olup, diğer çözümler kabul edilmeyecektir. Ayrıca, RFQ'da açıkça belirtildiği gibi alternatif tekliflere izin verilmediğini de lütfen unutmayınız.
